

## 9 Channel IVR Support up to 4K

- 9 Channel IVR Support upto 4K IPC, H.265 IVR
- 4ch at same time Playback
- Support H.264/H.265
- Support ONVIF, High profile S
- Support P2P cloud service
- Instant playback under preview screen without affecting other channel preview
- Supports disk grouping quotas and disk group storage modes
- Support channel grouping, preview tour
- Network Bandwidth: 64 MBPS
- Support IPC front-end intelligent analysis:  
Target Count, Object Left/Lost, Electronic Fence, Line Crossing, Humanoid Detection

### Benefits Over Features

**High-Resolution Imaging** – Our 9 Channel DVR Supports up to 4K resolution for clear and detailed imagery, allowing for precise identification of subjects and objects for superior surveillance performance. With its enhanced surveillance capabilities, it captures critical details with exceptional clarity and accuracy. This can help operators take swift actions if required.

**Efficient Data Management** – Equipped with advanced DVR technology, our product optimizes storage space by recording only relevant footage, reducing storage costs. It provides efficient data storage solutions, ensuring that important footage is retained while minimizing unnecessary storage usage. Overall, such aspects make data management simple and easy.

**Scalability and Integration** – Our DVR for CCTVs offers scalability to accommodate expanding surveillance networks, providing flexibility for future growth and system upgrades. It seamlessly integrates with existing CCTV infrastructure, maximizing investment and minimizing disruption. It offers the utmost set-up convenience for users looking for future expansions of their security system.

### Addressing Pain Points

**Streamlined Surveillance Operations** – Our 4K DVR for CCTVs simplifies surveillance operations with intuitive controls and a user-friendly interface, reducing the workload on security

personnel. It enhances situational awareness and response capabilities, ensuring efficient management of multiple cameras even with less manpower.

**Enhanced Security Measures** – Our 9 Channel DVR provides comprehensive surveillance coverage to address security vulnerabilities and blind spots, minimizing security risks and deterring potential threats. It facilitates proactive surveillance measures, enabling swift incident response and ensuring a safe and secure environment.

**Trueview 9 Channel DVR** – where advanced technology meets superior security, safeguarding what matters most with clarity and efficiency! High-end surveillance guaranteed!
