

8+2 Giga Port AI PoE Switch

- 8+2 Port AI PoE Switch
- 8*10/100Mbps PoE ports, 2*10/100/1000Mbps uplink port
- Support IEEE802.3af/at
- Support restrain network storm, VLAN function
- Support Max Transmission distance up to 250m with PoE Power
- All port supported by MDI/MDIX auto flip and self-negotiation
- Built-in power supply
- Maximum power of single PoE port: 30W
- Maximum PoE power: 150W
- Adopts store-and-forward architecture With power circuit protection, it can protect the security of the back-end equipment
- Fan less, natural cooling, small, compact and quiet design, suitable for desktop or wall
- Support lightning protection 2000V

Benefits Over Features

Versatile PoE Capabilities – Supports devices, including a Solar Powered CCTV, Interactive Panels, Digital Signages, etc., offering a convenient, single-cable solution for both power and connectivity. Our 8+2 Giga Port AI PoE switch can optimise power allocation and network traffic, ensuring efficiency and stability.

Adaptability and Ease of Use – With multiple ports, our PoE Switch caters to many digital connectivity needs. It makes it a go-to device for environments like retail spaces and educational institutions.

Reliable in Various Environments – Whether it's Security Cameras or Digital Signage Solutions, our PoE Switch ensures consistent performance in diverse settings. It is designed with advanced circuit protection and safeguards connected devices from power surges and electrical interference.

Addressing Pain Points

High-Speed and Reliable Connectivity – Our switch has eight 10/100/1000Mbps PoE ports and two additional 10/100/1000Mbps uplink ports and is designed for high-bandwidth applications. Its Power over Ethernet (PoE) capability allows for the powering of devices directly

through the network cables, simplifying wiring, reducing installation costs, and enabling high-speed data transfer, and

Enhanced User Experience – Our PoE Switch is perfect for powering digital signage solutions, contributing to engaging and interactive customer experiences.

Eco-friendly and Energy Efficient – Our 8+2 Giga Port AI PoE Switch is ideal for powering eco-friendly devices like Solar CCTV Cameras, aligning with sustainability goals. It also reduces overall energy consumption.

Easy Installation and Maintenance – Our PoE Switch is user-friendly, designed for easy setup and low maintenance, catering to both technical and non-technical users.

Trueview 8+2 Giga Port AI PoE Switch – More than just a networking device. Fulfill your multidimensional connectivity needs with our comprehensive, high-performance network solutions!
