

## 128 Channel IVR Support up to 4K

- 128 Channel IVR Support upto 4K IPC, H.265 IVR
- 16ch at same time Playback
- Support H.264/H.265
- Support P2P cloud service
- Instant playback under preview screen without affecting other channel preview
- Supports disk grouping quotas and disk group storage modes
- Support channel grouping, preview tour
- Support ONVIF protocol, support High profile S, High profile G, compatible with different IP camera that based on ONVIF, RTSP standard.
- Support IPSAN、NAS
- Support Alarm In-Out
- Support Two-Way Intercom
- Support instant playback for screen preview during multi-channel display mode.
- Network Bandwidth: 512 MBPS
- Support IPC front-end intelligent analysis: Target Count, Object Left/Lost, Electronic Fence, Line Crossing, Humanoid Detection

### Benefits Over Features

**High-Resolution Recording** – Our 128 Channel DVR supports up to 4K resolution, ensuring crystal-clear and detailed footage. Using our DVR for CCTVs, you can have enhanced capability of identifying and analysing critical events. Our DVR allows you to retain relevant, important footage in top-notch quality without compromising on storage.

**Intelligent Video Recording Technology** : The advanced DVR technology of our product helps you optimize storage space by recording only relevant footage based on motion detection. Moreover, it also uses other user-defined criteria and helps reduce storage costs significantly while simplifying data management.

**Scalability** – With 128 channels, our DVR for CCTVs offers extensive scalability and accommodates large camera systems and future expansion requirements. Future expansions now made convenient and hassle-free with our DVR's extensibility.

**Remote Accessibility** – You can access live or recorded footage remotely via the TrueCloud Pro+ (available on the Play Store and App Store) or web interface. With real-time monitoring and management from anywhere, Trueview provides ultimate protection for your space. All you need is stable internet connectivity.

## **Addressing Pain Points**

**Storage Efficiency** – Our product comes equipped with efficient recording capabilities, helping alleviate your concerns regarding storage space. By selectively recording pertinent footage, our DVR ensures that critical events are captured while minimizing unnecessary data storage. All critical events are recorded in a comprehensive manner to prevent any hassles in restoration or reference.

**Ease of Management** – Despite its high channel count, our DVR for Smart CCTV has user-friendly setup and configuration options, making it straightforward for administrators and security personnel to operate and manage effectively.

**Integration Compatibility** – Our DVR for CCTVs seamlessly integrates with existing surveillance systems and infrastructure, facilitating centralised management and control of multiple cameras and devices for streamlined operations.

**Trueview 128 Channel DVR** – Elevate your surveillance capabilities and experience enhanced scalability and efficiency. Protect what matters most with our security solution!
