

16+2 Port AI PoE Switch

- 16+2 Port AI PoE Switch
- 16*10/100Mbps PoE ports, 2*10/100/1000Mbps uplink port, 1 Giga SFP Port
- Support IEEE802.3af/at
- Support restrain network storm, VLAN function
- Support Max Transmission distance up to 250m with PoE Power
- All port supported by MDI/MDIX auto flip and self-negotiation
- Built-in power supply
- Maximum power of single PoE port: 30W
- Maximum PoE power: 250W
- Adopts store-and-forward architecture With power circuit protection, it can protect the security of the back-end equipment
- Fan less, natural cooling, small, compact and quiet design, suitable for desktop or wall
- Support lightning protection 2000V

Benefits Over Features

PoE Efficiency – Our switch offers a sustainable solution for powering devices such as CCTV Cameras with Solar Panels. It eliminates the need for separate electrical cabling.

High-Speed Connectivity – With its capacity to handle high-speed data transfers, this switch is essential for the efficient operations of CCTV cameras and other devices.

Adaptable for Multiple Scenarios – Whether it is for an office, a remote location, or a public area, our PoE Switch can adapt to various environments. It provides network stability and seamless connectivity irrespective of its placement environment.

Reliable – Our PoE Switch is designed keeping consistency and efficiency in mind. It ensures the stable and seamless operation of crucial surveillance devices, including a 4G Solar CCTV Camera, ensuring consistent operation and reducing downtime.

Addressing Pain Points

Network Stability in Remote Areas – Our PoE Switch is perfect for rural and remote areas with a scarcity of traditional power sources. In such areas, it ensures stable and consistent

connectivity. This way, it ensures that critical surveillance operations and critical communications are carried on smoothly, without any interruption.

Eco-Friendly Operations – With its energy-efficient PoE technology, our switch addresses environmental concerns. It provides a green solution for powering Solar Powered CCTV Camera and other such devices.

High-Speed Connectivity Across All Ports – Our switch provides high-speed connectivity across all its ports. This way, it guarantees reliable and fast network connectivity in various settings and environments.

Easy Installation and Maintenance – Installation and maintenance are among the most important aspects of any switch. Our switch is designed for straightforward and easy installation and maintenance. It directly reduces the need for technical expertise, reducing the setup time.

Trueview 16+2 Port AI PoE Switch : Invest in technology that connects, sustains, and ensures uninterrupted and efficient operations!
