Benefits Over Features

High-Resolution Imaging – Our AHD Bullet Camera accompanies a 2.4MP resolution, providing clear, detailed video. This aspect makes identifying objects and humans simpler. Moreover, its sophisticated imaging powers provide reliable monitoring in every setting.

Sturdy Design – Our AHD CCTV Camera has a robust build that guarantees dependability and endurance in outdoor environments. It is made to survive harsh climatic conditions 24/7, 365 days a year.

Night Vision – Our camera's all-time color vision provides improved night vision, enabling continuous surveillance even in total darkness or low-lighting conditions.

Simple Installation – Our camera is easy to install and can be rapidly placed and set up without requiring complex wiring or technical knowledge. It is suitable for both – personal and professional installations.

Addressing Pain Points

No WiFi Dependency – Unlike traditional security cameras our AHD Bullet Camera doesn't rely on WiFi connectivity. It operates on its own, making it perfect for places without WiFi access or where a cable connection is required.

Reliable Surveillance – Our AHD CCTV Camera offers dependable surveillance coverage. Thanks to its sturdy design and cutting-edge capabilities, it provides consumers who value security and safety peace of mind.

Economical Resolution – Our camera offers great value for money, providing robust performance and clear images at a reasonable price. This way, you can protect what matters the most without burning a hole in your pocket.

Trueview 2.4MP AHD ATC Bullet Camera – Your vigilant and reliable security partner for consistent monitoring! Safety and peace of mind guaranteed!
