

32 Channel IVR Support up to 5MP

- 32 Channel IVR Support upto 5MP IPC, H.265 IVR
- 16ch at same time Playback
- Support H.264/H.265
- Support ONVIF, High profile S
- Support P2P cloud service
- Instant playback under preview screen without affecting other channel preview
- Supports disk grouping quotas and disk group storage modes
- Support channel grouping, preview tour
- Network Bandwidth: 80 MBPS
- Support IPC front-end intelligent analysis:
Target Count, Object Left/Lost, Electronic Fence, Line Crossing, Humanoid Detection

Benefits Over Features

High Resolution Imaging – With 5MP resolution, our 32 Channel DVR provides crisp and detailed imagery. This aids in the precise identification of different objects and enables superior surveillance performance. The high-quality footage enhances security while making identification easier in any unwanted situation that may arise.

Efficient Data Management – Equipped with 2 HDD support, our DVR for CCTVs helps maximise storage capacity. Utilising smart video recording technology, it only stores necessary footage, significantly reducing storage costs. This, in turn, helps with efficient data management throughout.

Scalability and Integration – Our DVR for CCTVs also offers scalability, allowing businesses and institutions to expand surveillance networks without a hitch. It seamlessly integrates with existing CCTV infrastructure, maximising your investment and minimising disruption.

Such aspects make our DVR perfect for any sort of future expansion with regard to surveillance.

Addressing Pain Points

Streamlined Surveillance Operations – Our 32 Channel DVR is meant to simplify surveillance operations of different organisations and institutions with its user-friendly interface and intuitive controls. It not only reduces workload on security personnel but also aids with efficient

management of multiple cameras simultaneously. As it requires a lesser amount of staff, businesses can significantly cut down their administrative costs.

Enhanced Security Measures – Our DVR for CCTVs come equipped with enhanced surveillance capabilities and enable comprehensive monitoring. By addressing blind spots and other such security vulnerabilities, it facilitates proactive surveillance measures. Our DVR minimises security risks and helps deterr potential threat, and also optimises storage capacity.

Trueview 32 Channel DVR – Ensure the safety and security of your premises and assets with unmatched clarity and efficiency. Monitor and protect what matters the most without storage constraints.
