About Company

A2Z of Video Collaboration

Introduction

Founded in 2007, PeopleLink Unified Communications Private Limited has emerged as a leading Video Collaboration Company. It has marked exponential growth since its inception. PeopleLink has emerged as India's first ISO 9001:2015 & ISO 27001:2013 certified Video Collaboration Company.

PeopleLink has been a significant player with global coverage in providing products and services crafted with modern video technology. Its range of offerings includes next-generation Video technology and Audio Video peripherals across a wide range of focused industry verticals.

Vision & Mission

Vision:

To be Recognized as World's No. 1
Collaboration Company

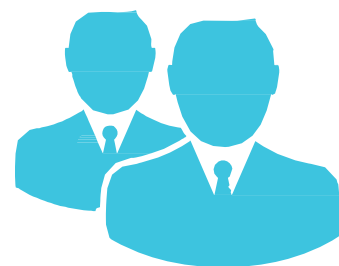

Mission:

Develop End to End Collaboration Products &
Services for Healthcare/Education/Enterprise
and Retail Verticals and deliver them to
Customers across the Globe through Online &
Channel Partner Network

Testimonials

Highly flexible & User Friendly – We recommend PeopleLink as a complete VC solution & highly pleased with the quality they provide at low bandwidth.

MTR Foods
Hyderabad

PeopleLink video conferencing solution, we could significantly notice the faster and efficient project delivery to our clients. Low bandwidth consumption and third party integration were the decisive factors for us to solidify our decision to invest in PeopleLink solution.

Vidharba Konkan Gramin Bank
Nagpur, Maharashtra

PeopleLink enabled our university's video connectivity over the NIC NKN network to host the Hon'ble President Shri Pranab Mukherjee's address to the National Universities. PeopleLink offered this Managed Video service for our connectivity at the shortest possible timelines with an end-to-end execution including Pre-Event testing, Live Event Execution with utmost professionalism.

Anupam Kumar
System Analyst, Central University of Jharkhand

Incomparable Audio-Video Clarity – Our staff & students are continuously getting its advantage as it is highly user friendly. It is a great experience to get High Definition Videos at Student-Teacher ends at remarkably low bandwidth.

RC Patel College

Testimonials

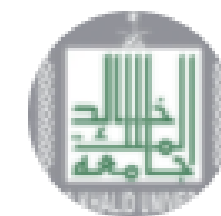

Best Technology in the Industry – We have been using PeopleLink for connecting 30 concurrent locations for the last 2+ years & we do regular reviews with all major areas. The solutions provided helped us overcome the Bandwidth issues and maintain consistent video conferencing sessions. We selected PeopleLink after extensive testing & evaluation along with other hardware & software products in the market & found PeopleLink to be the Best. Our decision to opt PeopleLink turned highly useful in managing day-to-day operations and saved a lot of time & expenses.

APSRTC

Andhra Pradesh State Road Transport Corporation, Hyderabad

PeopleLink has delivered practical results for our hospitals to assist us in enhancing our patient assessment and treatment capabilities while having clear visibility of remote patients for consulting them through our specialists. With the features of recording and replaying surgical procedures, we are effectively conducting training sessions for our in-house surgeons. It is a pleasure for our doctors to utilize PeopleLink video conferencing features to the maximum without seeking any additional IT assistance.

EMBED HIGH QUALITY VIDEO CONFERENCING API

Start Building Your Custom API Video Experience

- Integrate Visual collaboration in existing Applications
- Build a custom communications-based Workflow

API Clients

inVC and inVC Pro

VIDEO MEETINGS WITH ANYONE, ANYWHERE, AND ANY DEVICES

inVC

- HD Video and Audio Calls
- One Click to Join Meeting
- Unlimited Hosts — Anyone can be a Host
- Unlimited Conference Calls
- Collaboration Tools

inVC Pro

- Supports H.323 Endpoints
- Supports SIP Endpoints
- Integrate with Legacy Endpoints

Clients

Virtual Patient-Doctor Consultation

InClinic is a software that connects patients with doctors - facilitating round-the-clock appointment booking, onsite and remote consultations, and post-consultation support.

- Virtual consultations and medical report sharing.
- Remote patient care
- Monitoring and recording necessary data
- Storing personal healthcare information
- Quick appointment & prescription refills
- Specialty care improvement

Healthcare

Hyflex Classroom Solutions

PeopleLink offers virtual, hybrid, and digital classroom solutions that transform every traditional classroom into a boundary-less virtual space where students and teachers can interact in a face-to-face real-life session very easily. This on-demand learning helps students to have a better learning curve wherever they are – either on-campus or off-campus.

- State-of-the-art Learning Management Suite
- Ability to conduct Virtual Counseling
- Lecture Capture for On-Demand Learning needs.
- Attendance Management
- Online Examination and Evaluation

Video Commerce Solutions

Video shopping is a workflow application designed for highest video shopping experience.

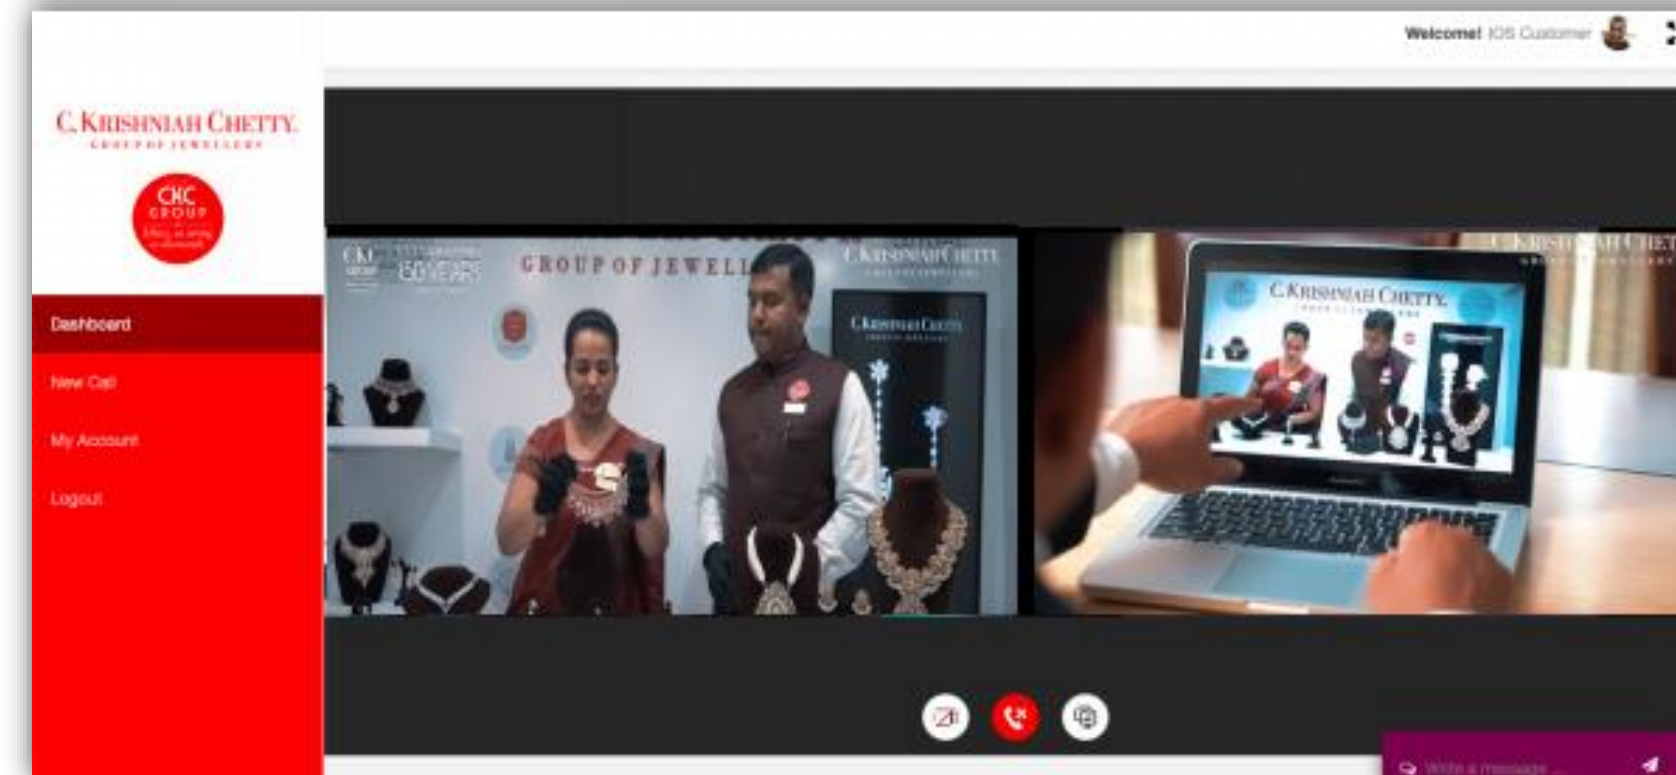

With this application, a user can go to the website of the store and browse for the product of choice.

The customer can then schedule a time and then shop for the product over video conference.

The product then gets shipped to the customer's address.

Interactive Webinar Services on Cloud

Engage Your Audience

Because of their interactive nature, webcasts form an ideal instrument to raise the level of involvement with your product or brand.

Know and Broaden Your Target Group

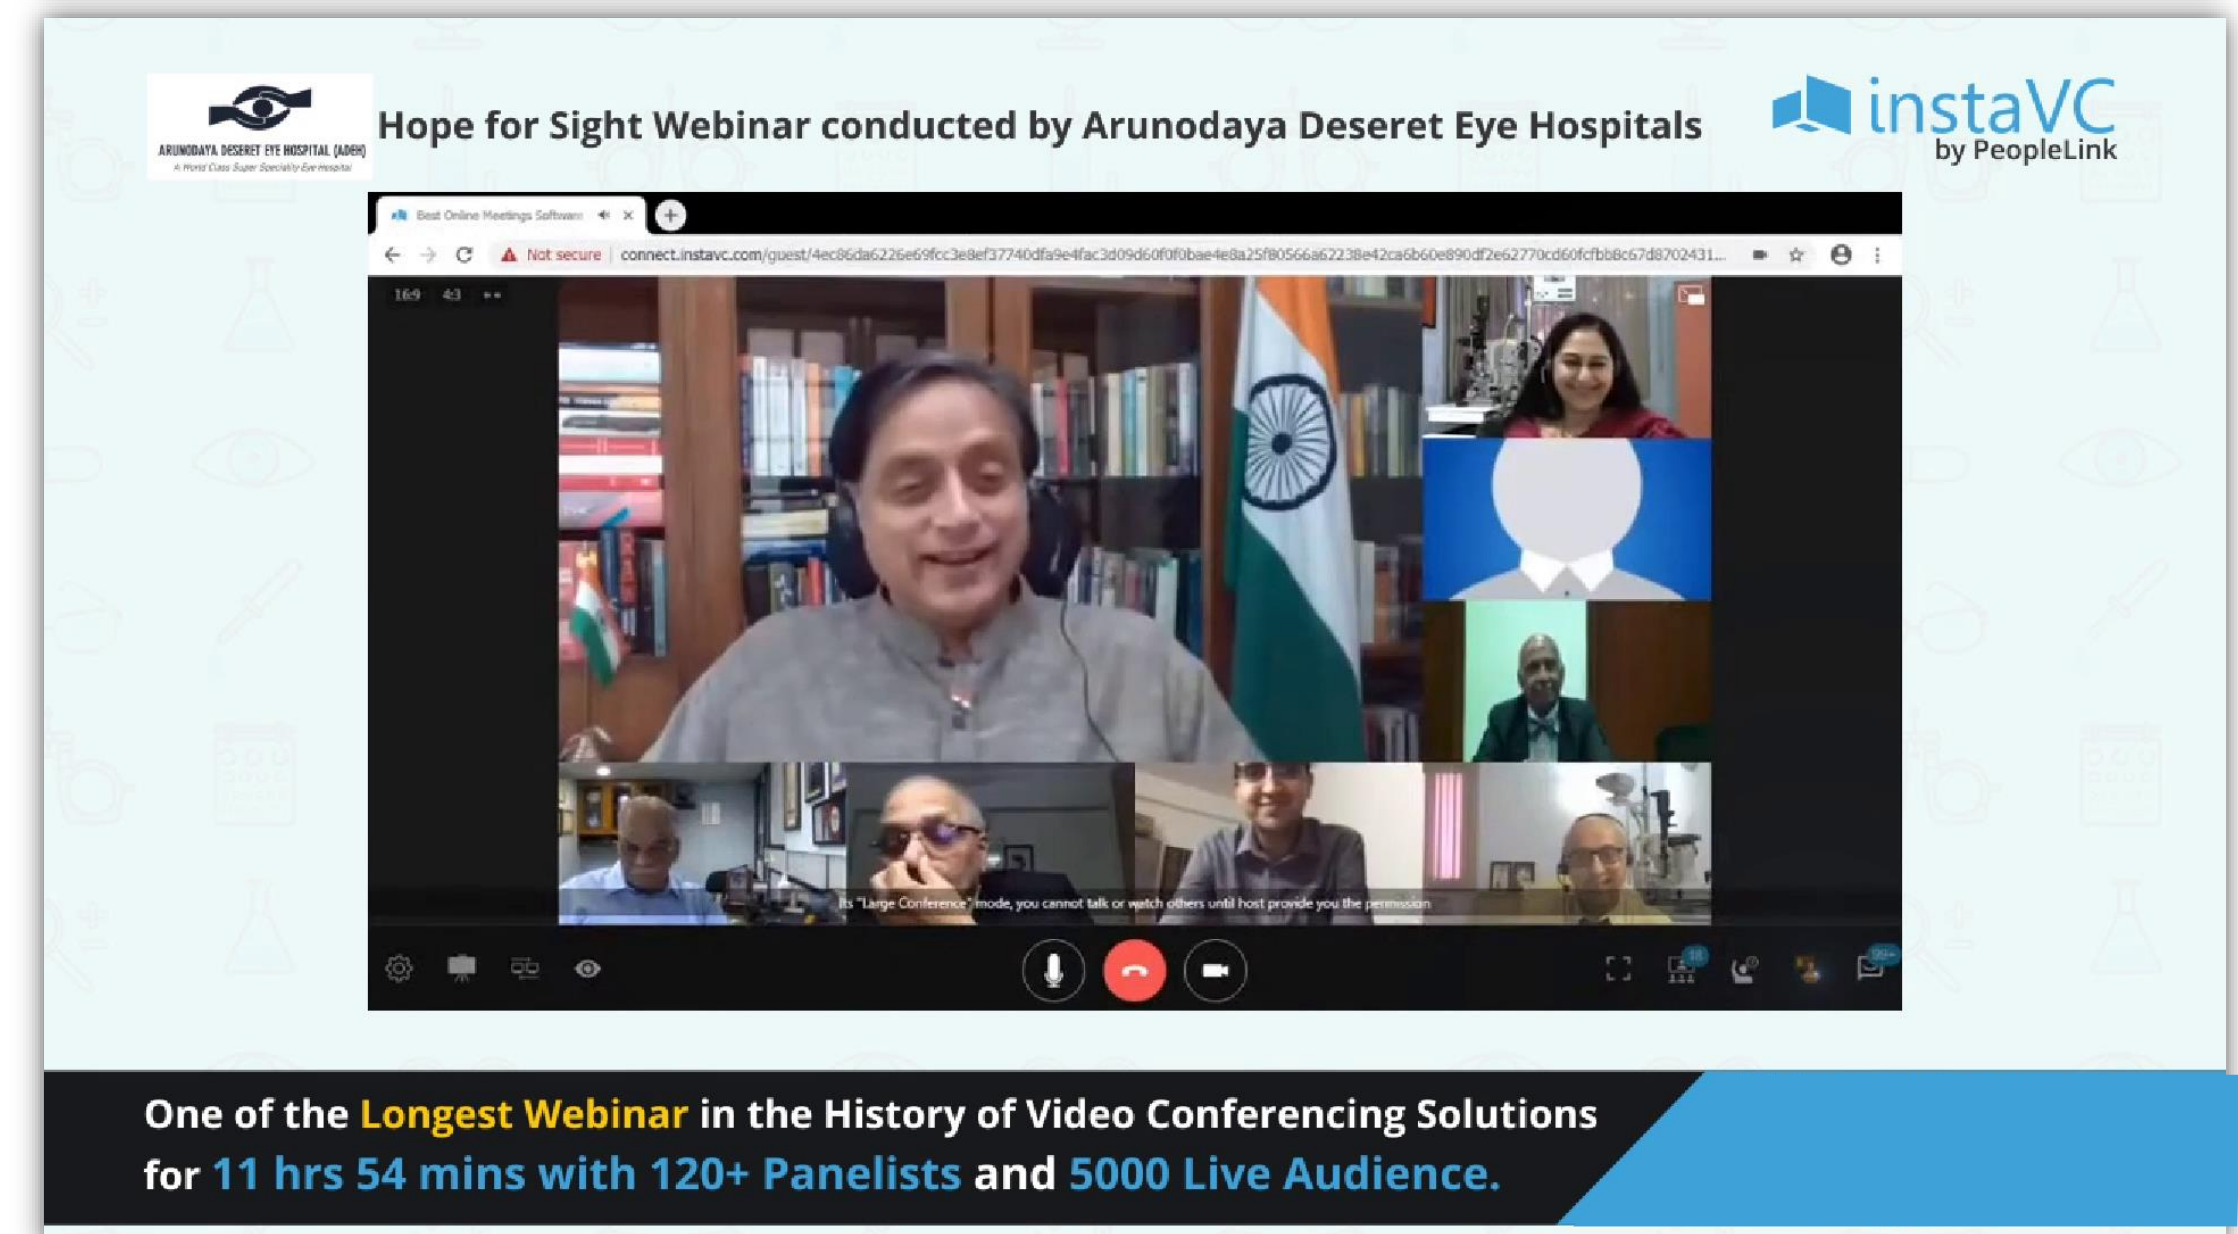

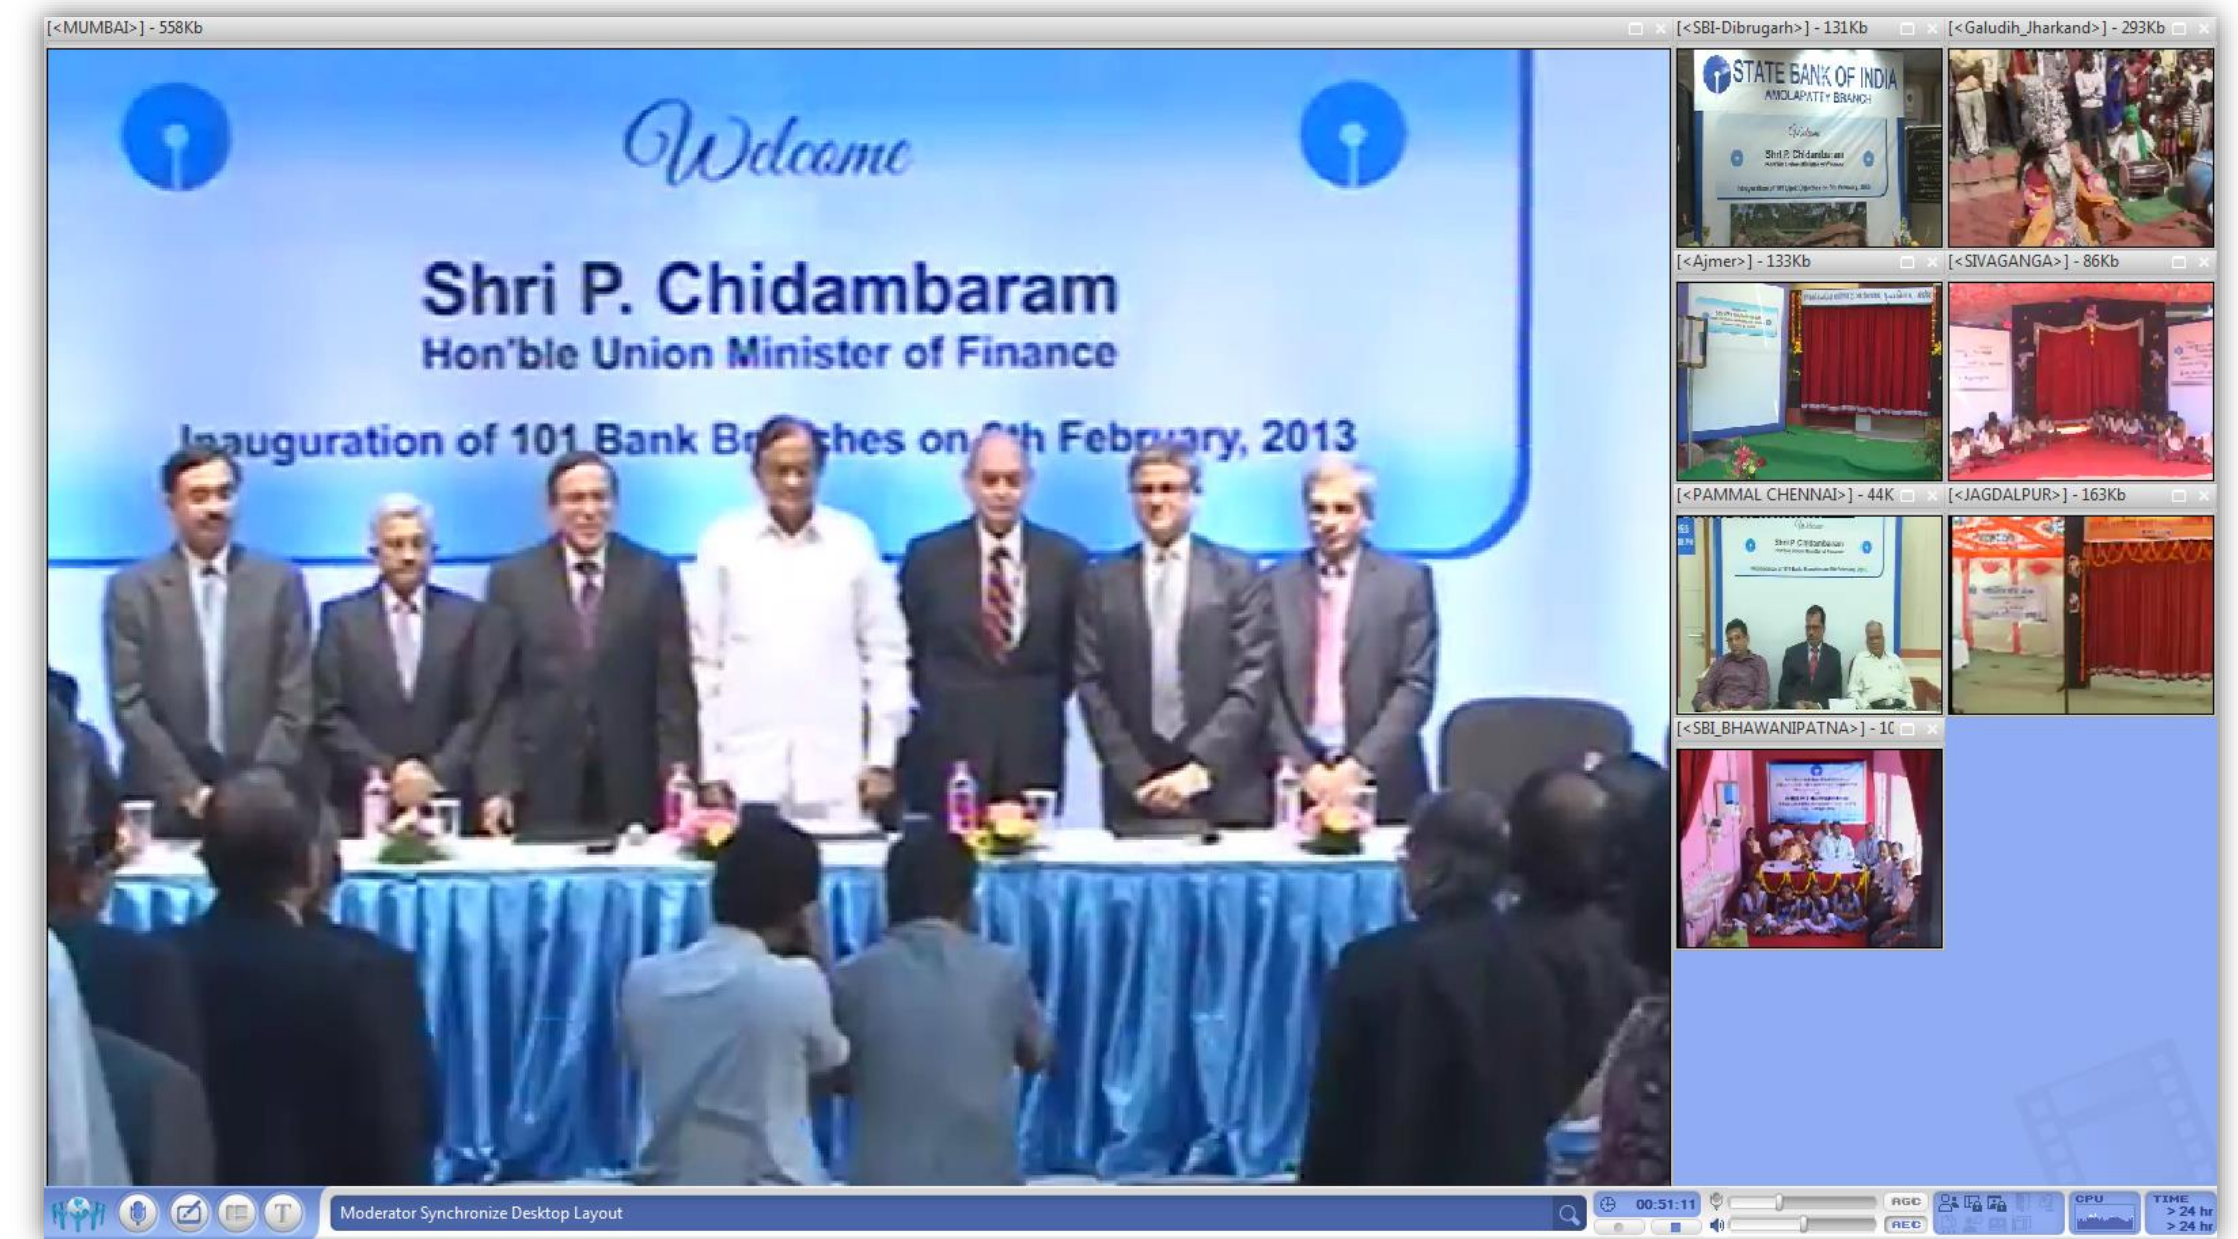

A webcast provides you with the opportunity to better identify your target audience

Collect and Unlock Knowledge

The webcast recordings allow you to further disseminate your information. You can build an archive and continue to unlock it through digital technology.

Enjoy Operation Benefits and Lower Costs

Less travel time, more compact events, more options concerning the time and location of events. All this results in cost savings.

A highly secure, jail visitor management system

Connect inmates and their visitors securely.

Facilitate relatives of the prisoners to have live audio-video chat with jail inmates while sitting in a chat-room of distantly-located Common Service Centers (CSCs).

Skip the security issues and manual scheduling.

With automatic scheduling and online visitation, avoid manual book-keeping of visitor schedules and prisoner security issues.

Monitor and record Visits

Monitor live and record visits to enable investigative opportunities and also reduce violence within jail walls.

Schedule court – inmate interactions seamlessly.

Enable virtual connect between various parties without compromising the security and safety of the members involved in the discussion.

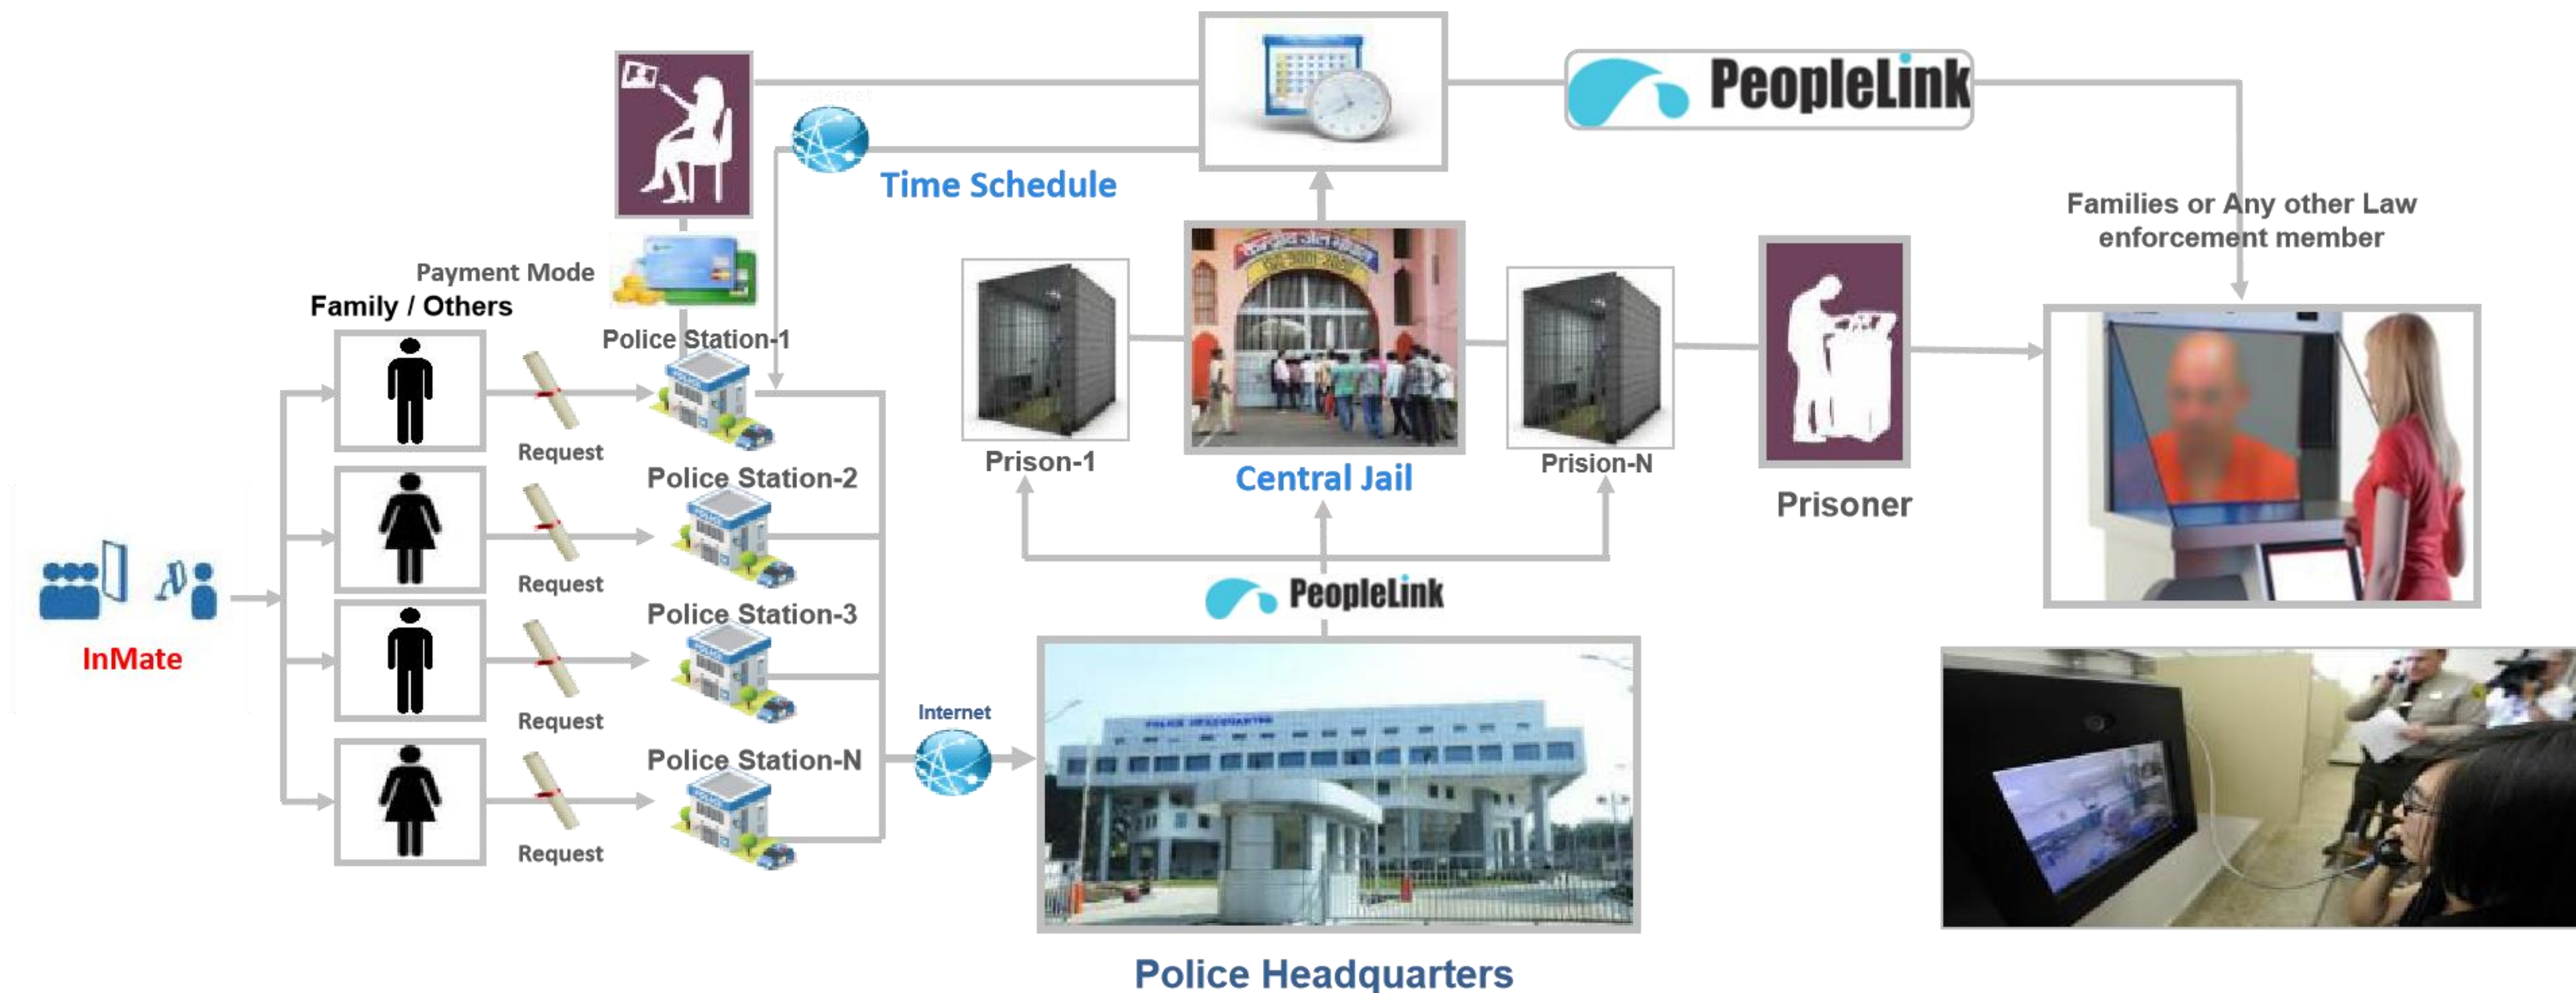

Jharkhand Prisons

Gujarat Prisons

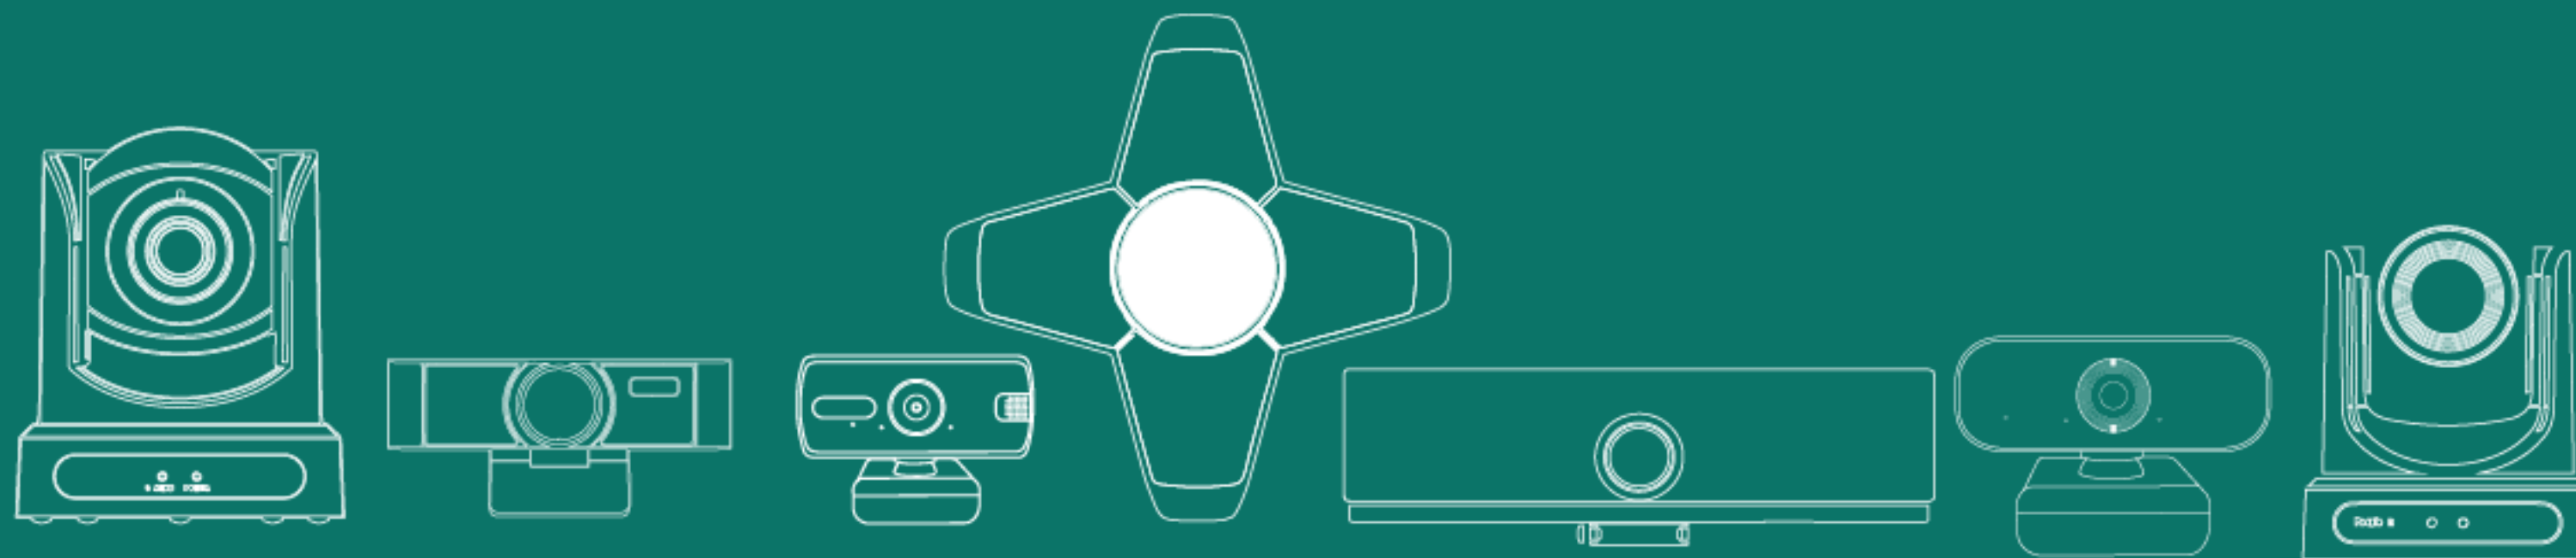

inMate – How it works?

- inMate applications received by police stations from the family members are sent to PHQ.
- The PHQ will consult with the prisons and arrange a time slot for family members.
- This information is again passed back to family members via police stations.

Impact Pro Codec (1+5)

PeopleLink Impact Zeta Endpoint

Integrated 4K Huddle Endpoint

4K HuddlePro (H.323/SIP)

Impact Pro Endpoint (P2P, 1+3)

- 1/2.7" CMOS Sensor, EP 2.07M
- 1080p@60fps
- 12x Optical zoom / 16x Digital zoom
- 72.5° FOV
- Presets: 8
- Standard Protocols: H.323, SIP, ITU-T H.239, BFCP
- Video Protocols: H.261, H.263, H.263+, H.264, H.264HP
- Audio Protocols: G.711, G.722, G.722.1, G.722.1C, AAC-LD, G.723.1, G.726, G.728, SILK
- Supports P2P and 1+3
- Video In: 1x DVI Port, Camera Integrated
- Video Out: 2x HDMI Audio In: 1x Mic In, 1x Line In
- Recording: Yes
- USB Ports: 2

Impact Pro 20x Endpoint

- 1080p@60fps
- 12x Optical zoom / 16x Digital zoom
- 60.7° FOV
- ITU-T H.323, IETF SIP
- Video Protocols: H.261, H.263, H.263+, H.263++, H.264, H.264SV, H.264 High Profile
- Audio Protocols: G.711, G.722, G.722.1*, G.722.1C*, AAC-LD, G.723.1, G.726, G.728, SILK
- Dual Stream: ITU-T H.239, BFCP
- Supports P2P and 1+3
- Video In: 1x DVI Port, Camera Integrated
- Video Out: 2x HDMI Audio In: 1xMic In, 1x Line In
- Recording: Yes
- USB Ports : 2

Impact Pro Codec (1+5)

- 1080p@60fps
- To be bundled with External PTZ Cameras
- 60.7° to 72.5° FOV
- Protocols: ITU-T H.323, IETF SIP, ITU-T H.239, BFCP
- Video Protocols: H.261, H.263, H.263+, H.263++, H.264, H.264SVC, H.264 High Profile
- Audio: G.711, G.722, G.722.1*, G.722.1C*, AAC-LD, G.726, SILK
- Supports P2P, 1+3 & 1+5
- Video In: 1x DVI Port, 1x HDMI Port, 1x 3G-SDI Port
Video Out: 2x HDMI, 1x 3G-SDI
- Audio In: 2x Mic In, 1x Line In
- Recording: Yes
- USB Ports: 2

PeopleLink Impact Zeta Endpoint

- 1/2.7" high quality, 2MP sensor.
- 1080p@60fps
- 12x Optical zoom /16x Digital zoom
- 72.5° FOV
- Protocols: ITU-T H.323, IETF SIP, ITU-T H.239, BFCP
- Video Protocols: H.261, H.263, H.263+, H.263++, H.264, H.264SVC, H.264 High Profile
- Audio: G.711, G.722, G.722.1*, G.722.1C*, AAC-LD, G.726, SILK
- Supports P2P and 1+3, 1+5
- Video In : 1x DVI Port, 1x HDMI Port, 1x 3G-SDI Port
Video Out: 2x HDMI, 1x 3G-SDI
Audio In: 2x Mic In, 1x Line In
Recording: Yes
- USB Ports: 2
- Audio Pickup Range upto 6 mtr

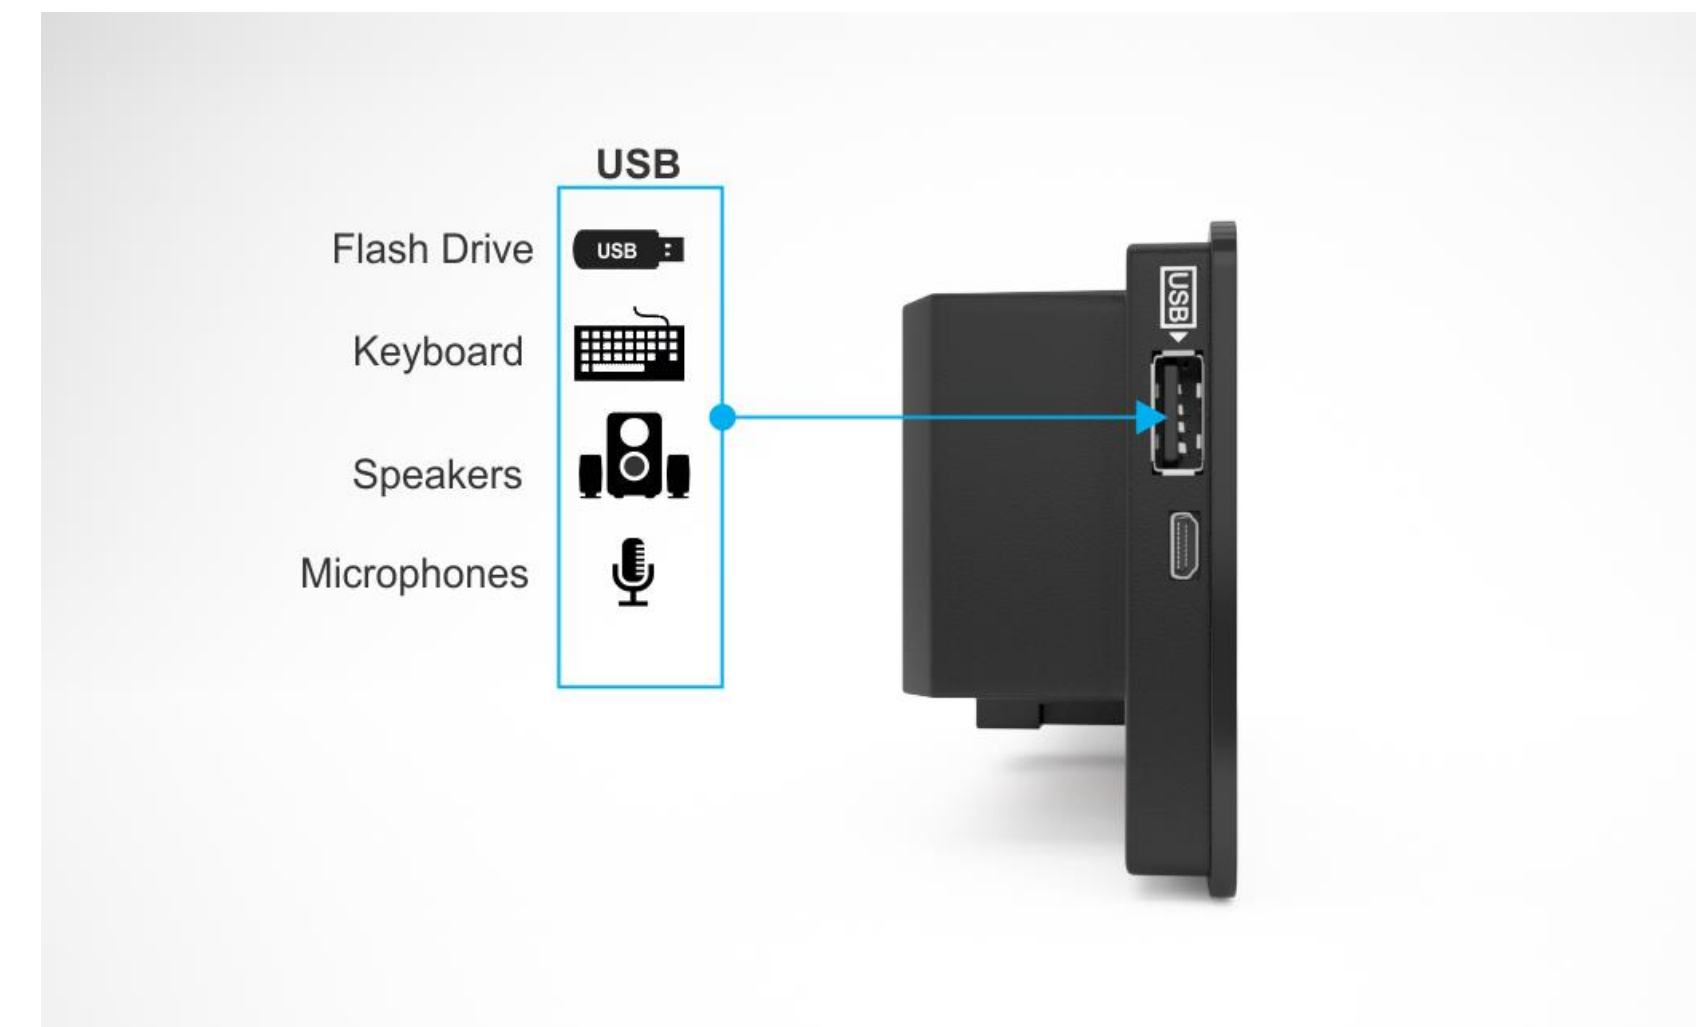

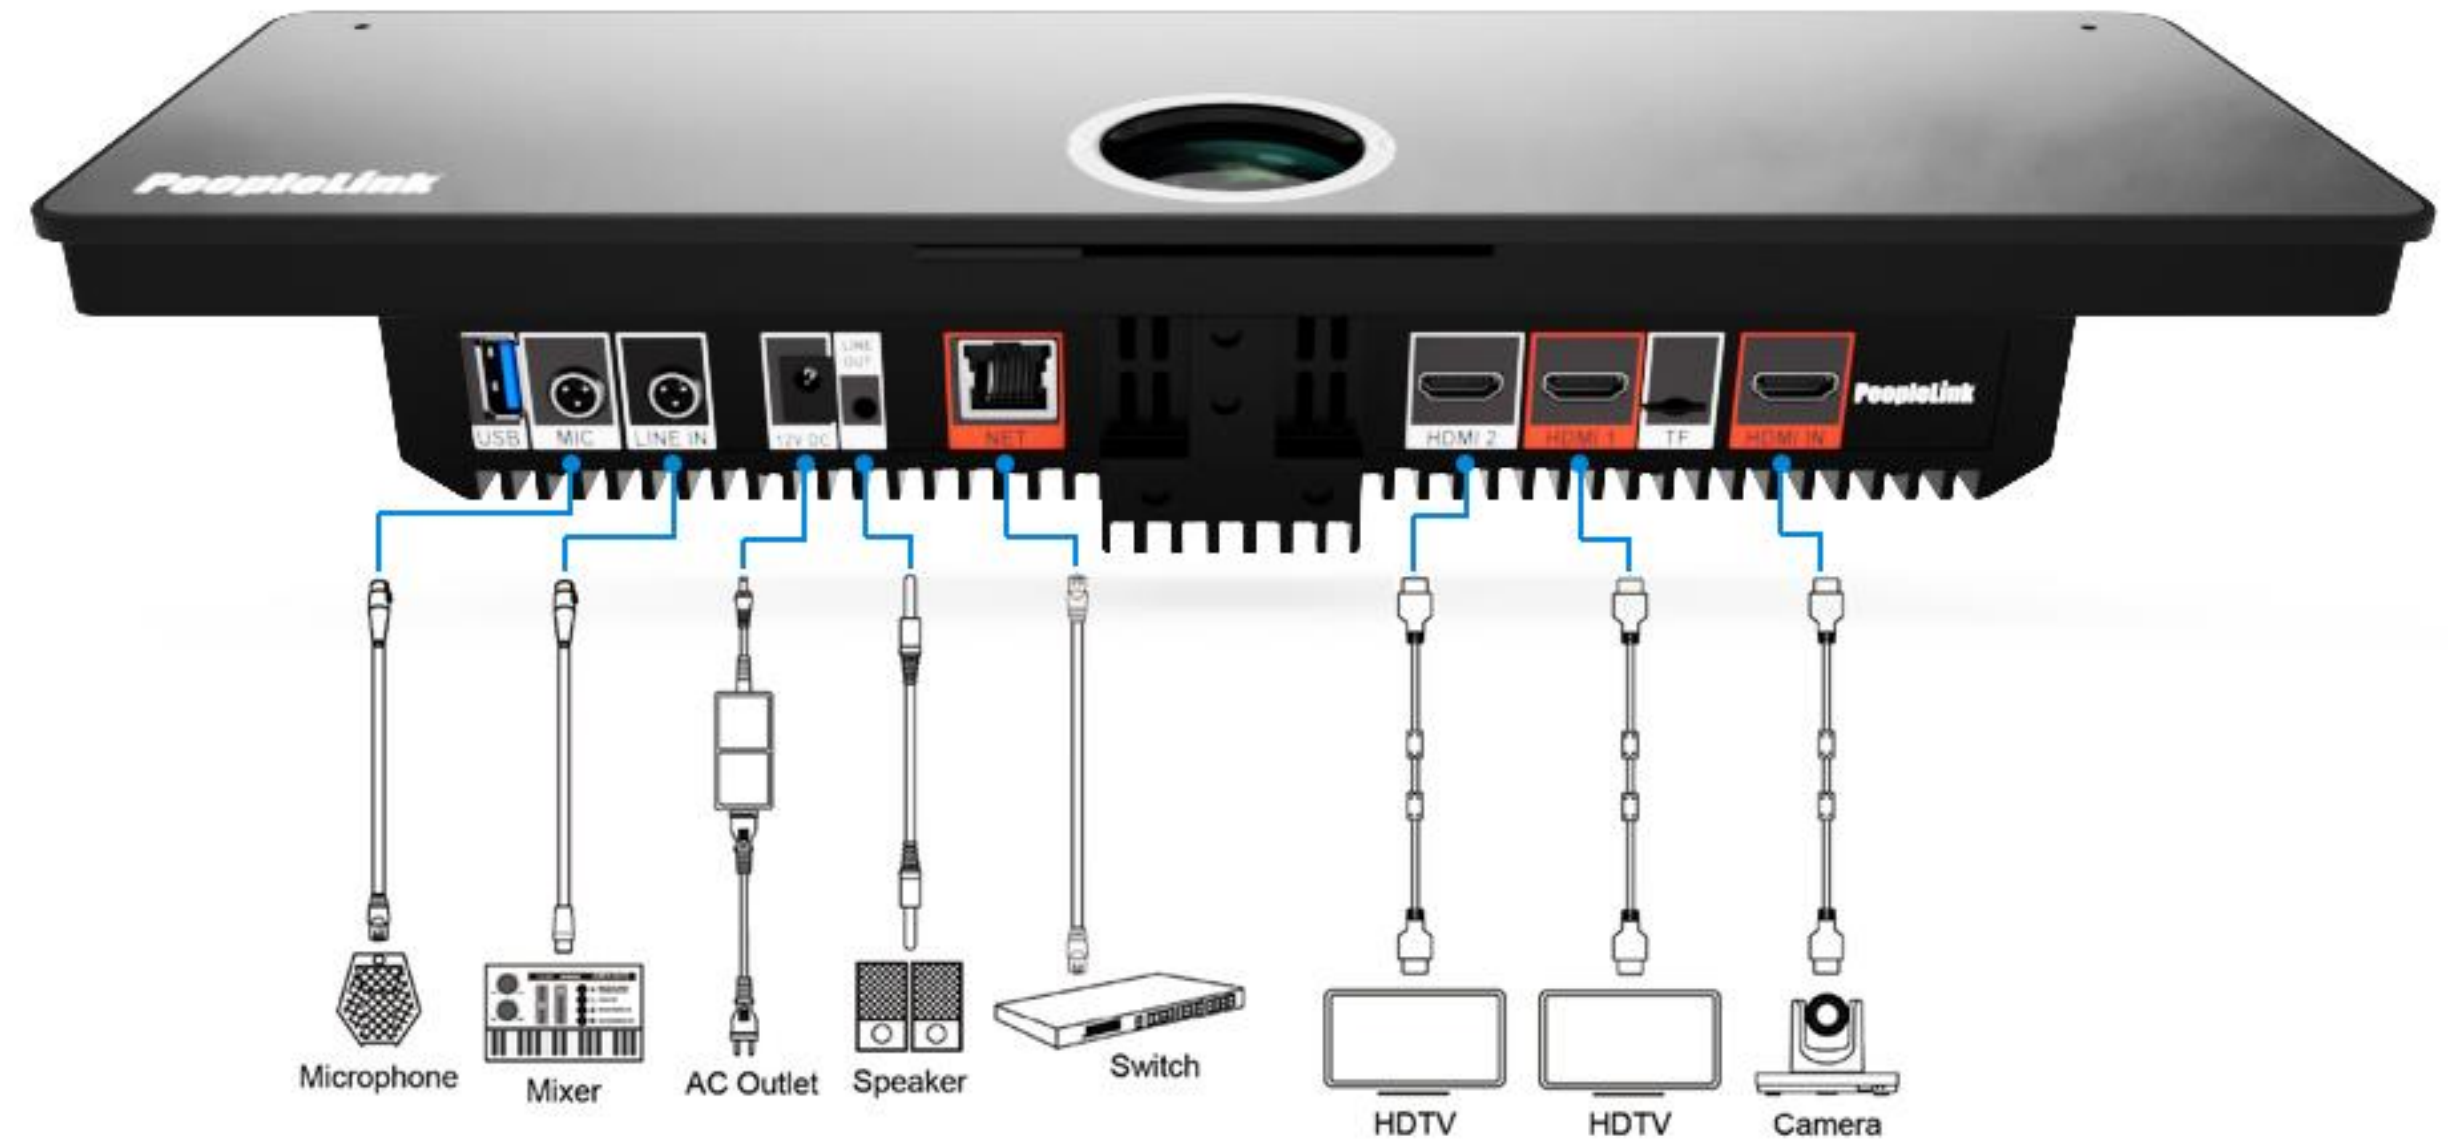

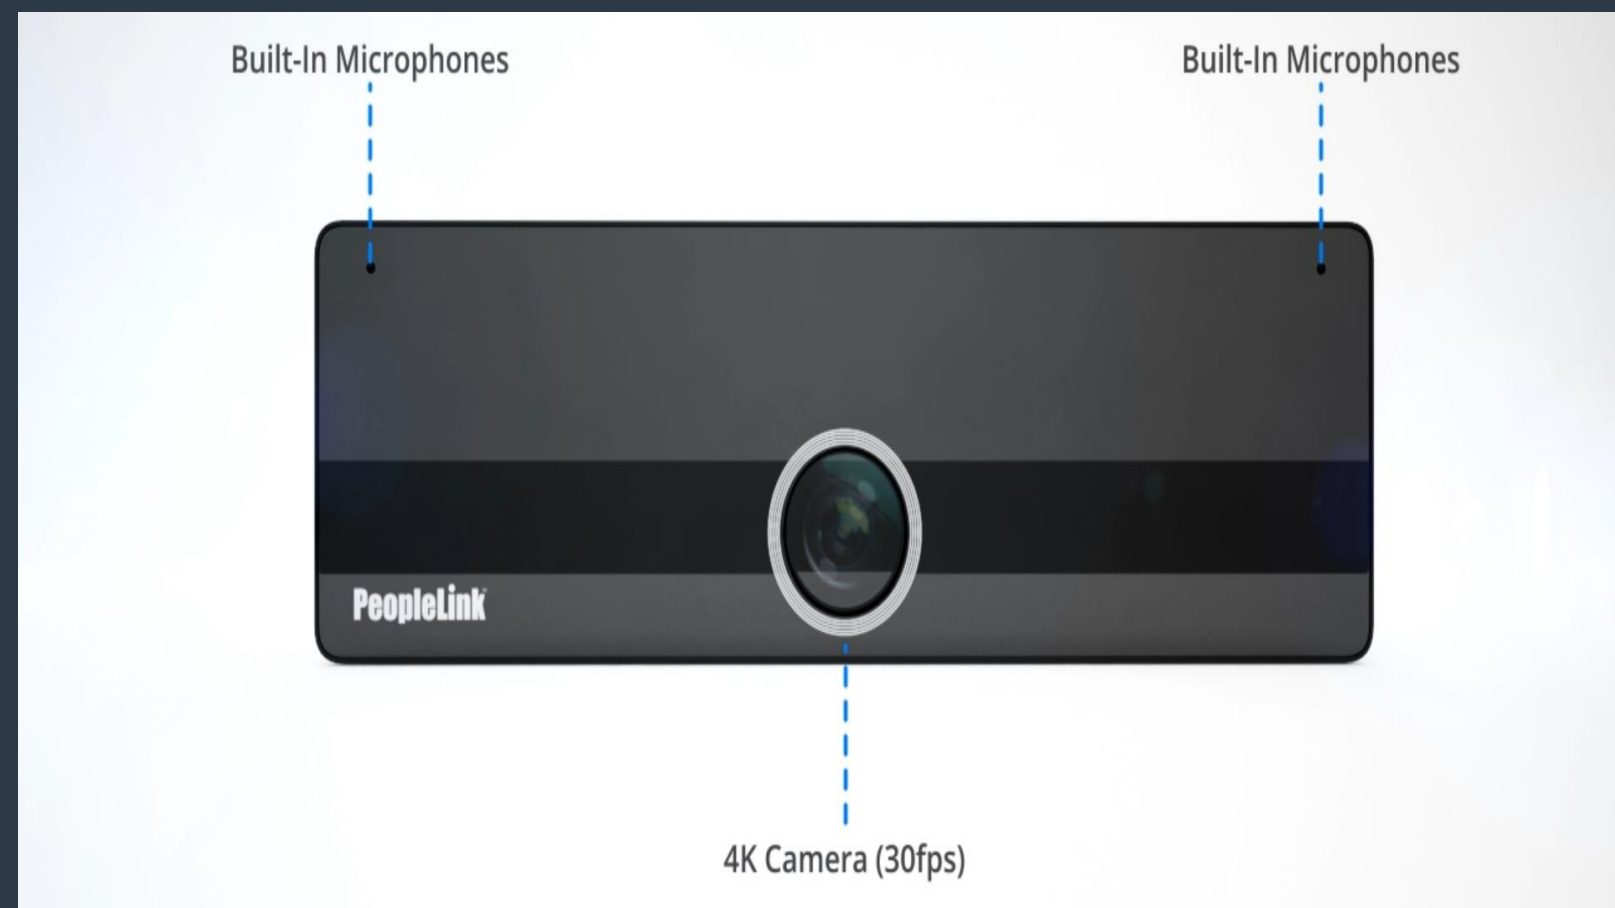

Integrated 4K Huddle Endpoint

- In-Built Android 6.0
- 8x Digital Zoom
- 4K Ultra High-Definition Video conference
- Built-in microphone
- Distribute incoming videos across two screens
- Supports Dual Stream: 1080p or 720p
- Built in AEC, AGC, ANS

4K Huddle Pro (H.323/SIP)

- ePTZ Camera
- Supports 4K@30fps
- 4x Digital Zoom
- Inbuilt stereo gain microphones
- 84° FOV
- Pickup Range up to 6 meters
- Down compatible with 1080P, 720P etc. resolutions
- Dual 1080p or dual 720p
- Built in AEC, AGC, ANS

Privacy projection function that can open or obscure the camera separately

InstaVC Pro MCU

InstaVC Pro Multi Control Unit support the WebRTC,H.323 and SIP communication protocol, support H.263, H.264, H.264HP, H.261, VP8 and a variety of video compression algorithm, with strong throughout the fully complete solution capabilities, excellent functions of conference management, to the user provides the industry's highest level meeting experience.

Features:

- Full HD Business to Business Communication
- Up to 100 Ports Full HD MCU
- Browser WebRTC Client Dial in (Chrome, Firefox, Safari and Opera)
- H.323/SIP dial in, or dial out from Web server
- Support H.239,Dual Video,BFCP.
- Advanced Continuous Presence
- Active speaker selection using remote control or voice activated
- Maximum support 25 split screen

- Microphone Options : 2 x Handheld/ 1 Handheld +1 Lapel / 2 x Lapel
- High efficiency of ~90%

Microphone

- Wide operating range of 300 feet
- Frequency Response : 80 Hz-18KHz

Amplifier

- Minimum impedance : 8 ohms @ 50W
- Power output @ 8 ohms : 2X50W
- Frequency response : 20 Hz-20,000Hz

Digital Signal Processor

- Frequency Range : 30 Hz. to 16 KHz.
- Built-In AEC, AGS, DNR

PeopleLink Amplifier 200W

Type: Class-D (Digital)

Channel Type: 2 Channel Stereo Amplifier

Power output RMS: 200 Watts

Power Output @ 8 Ohms: 2*100Watts VCC = 24V DC

Minimum Impedance: 8 Ohms @50 Watts

Frequency response: 20 Hz,20000Hz

Frequency range: 30 Hz to 16Khz

- 200 Watts Class D Mixer Amplifier with Bass, Treble, Equalizer
- 2 Balance Phantom Microphone Inputs with XLR
- 1 Unbalanced Microphone Phono Input
- RS232 connection for controller

Ideal for Board room & Conference room

PeopleLink DSP-CM

- Digital Signal processor with Omnidirectional Ceiling Microphone
- Upto 2 Ceiling Microphone can be connected.
- pick up radius: 10m Max,
- frequency response: 50hz-20khz
- SNR: 75dB
- Built-In Adaptive echo cancellation, Adaptive noise suppression and function of intelligent sound mixing
- Gets integrated with Peoplelink All In one DSP and Podium Range
- Designed For training rooms, classrooms, demo rooms, with discreet and easy ceiling mounting.

PeopleLink DSP-CM Pro

- Digital Signal processor with Omnidirectional Ceiling Microphone
- Upto 4 Ceiling Microphone can be connected.
- Pick up radius: 10m Max,
- frequency response: 50hz-20khz
- SNR: 75dB
- Built-In Adaptive echo cancellation, Adaptive noise suppression and Gain adjustment Smart Mixing
- Gets integrated with Peoplelink All In one DSP and Podium Range
- Designed For training rooms, classrooms, demo rooms, with discreet and easy ceiling mounting.

Look-At-Me (8 Button)

- Wireless Look At Me
- 8 Wireless Buttons
- RS-232 Control for PTZ Cameras.
- Pelco-P / Pelco-D / Visca Commands
- RF Based
- Flexibility: Easy to switch camera view with highly intuitive controls
- Visibility: Focus on the active speaker for enhancing conferencing experience
- Consumes less than 2W (Energy efficient)

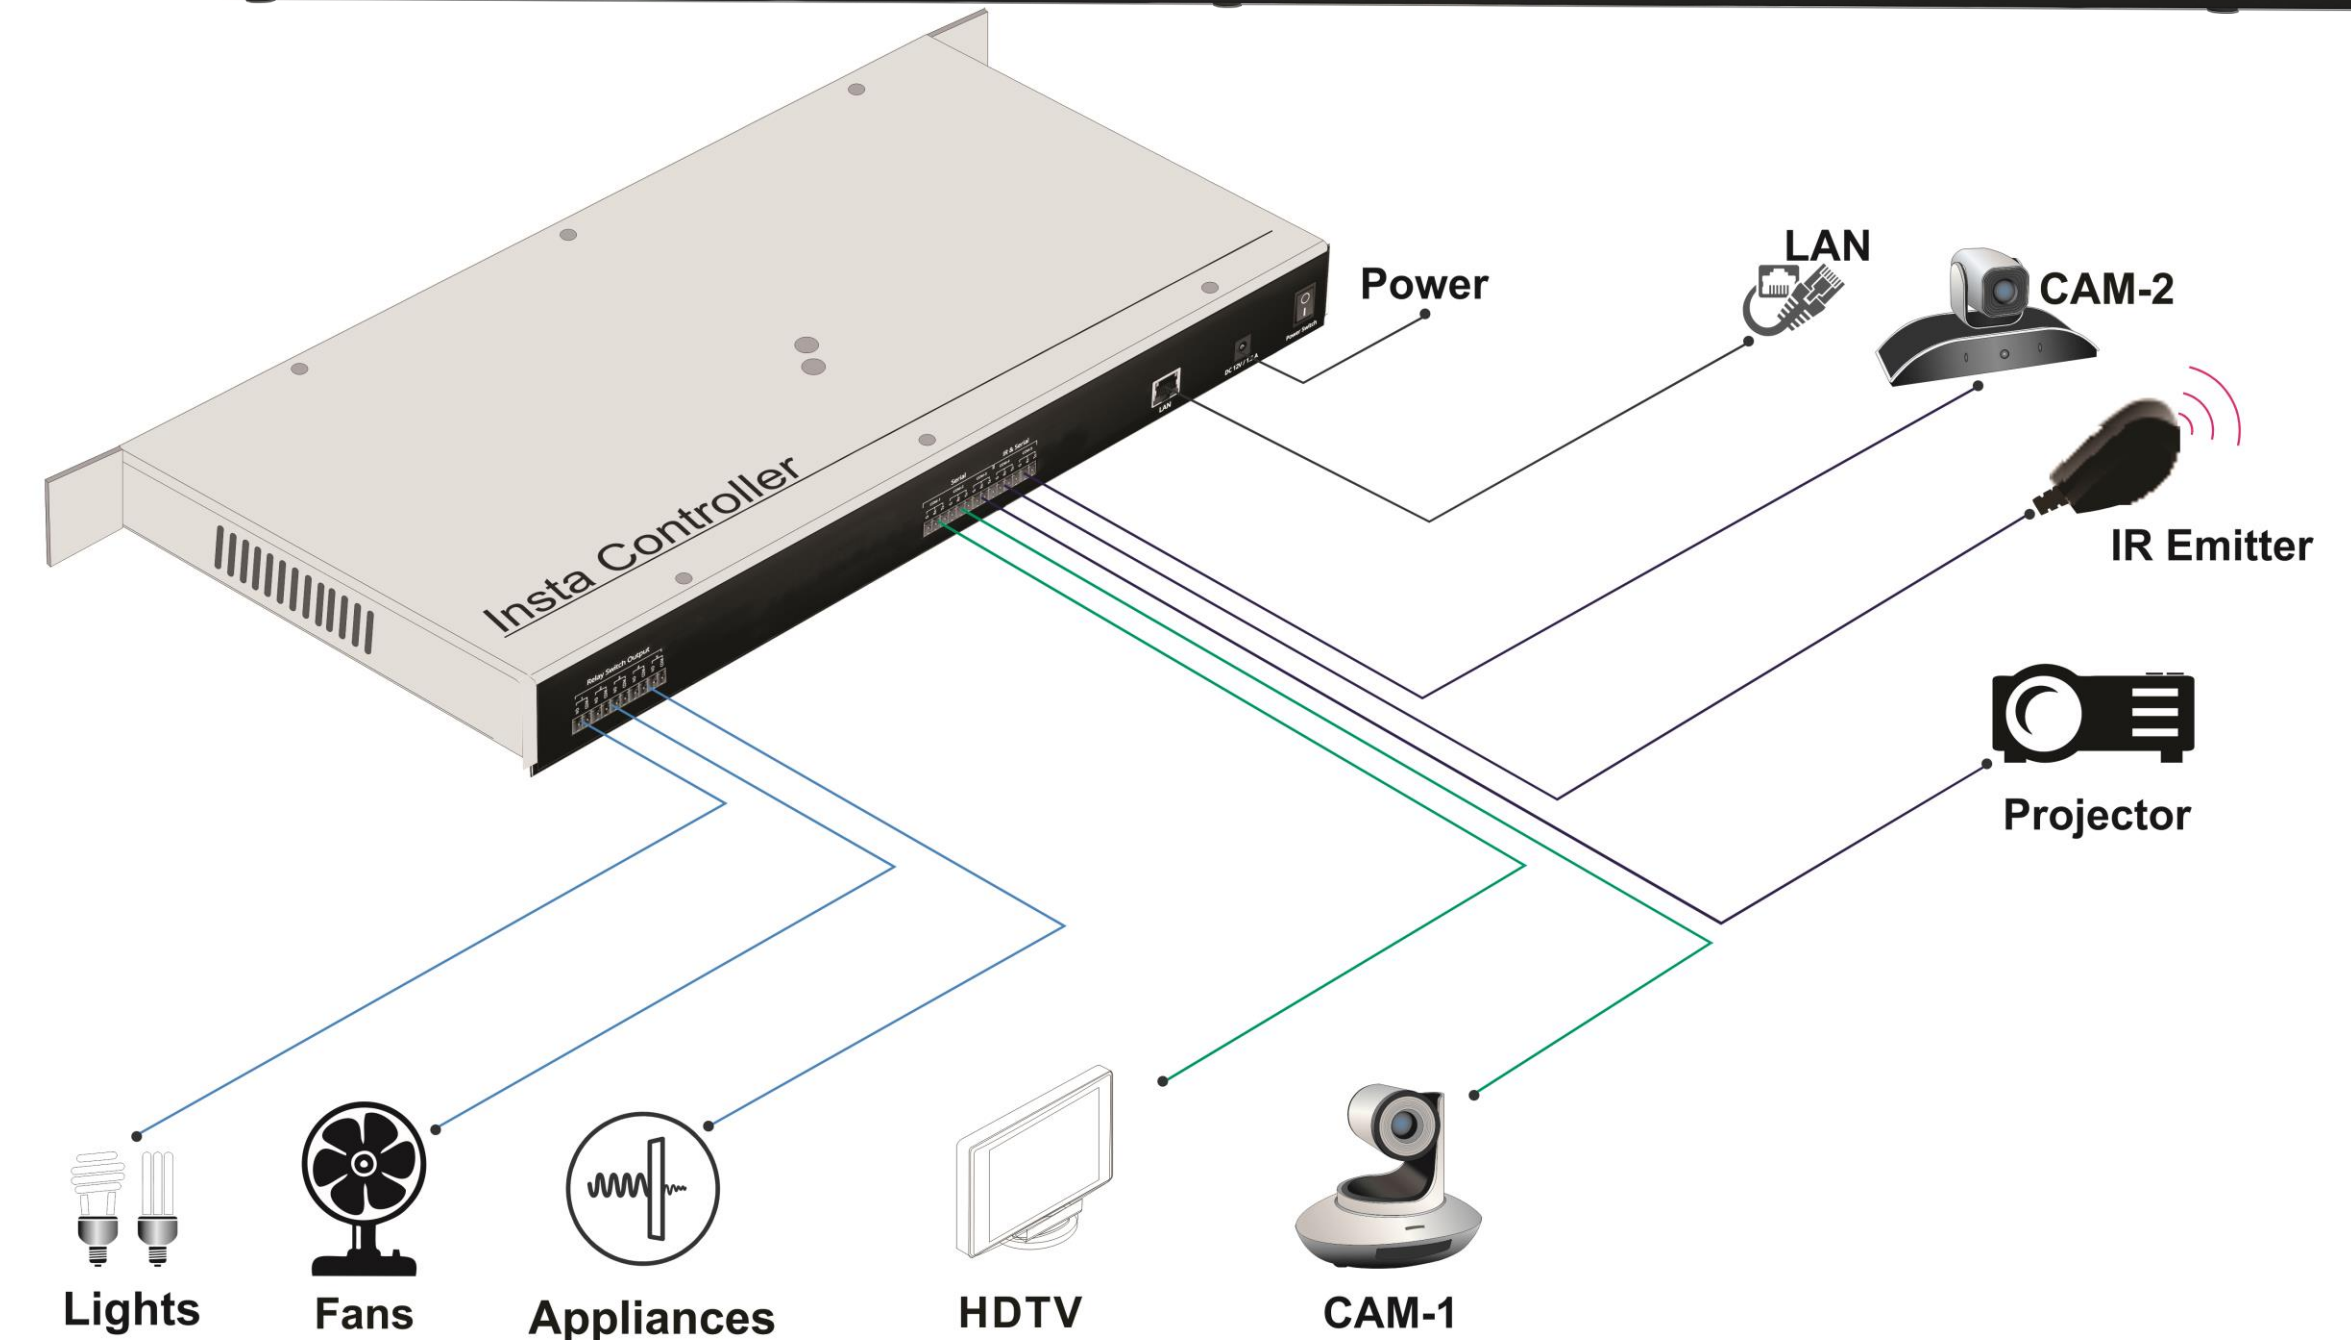

InstaController RSI (552)

PeopleLink Instacontroller is a control system that integrates with IP devices. This device offers secured and reliable connectivity with a wide range of IP devices, like touchscreens, computers, mobile devices, etc. whether on-premises or at remote locations. The Instacontroller android app helps in controlling systems on LAN, WAN or Internet from any location across the globe.

- Central Control System
- 3 Nos Bi-directional RS-232 Ports
- 2 Nos Hybrid RS-232/IR Ports
- 1 Nos RJ-45 Port
- 5 Nos High Voltage Relay Controls.
- Gets integrated with Peoplelink E-Podiums

For Boardroom automation, Classroom Automation, Conference Rooms, Seminar halls

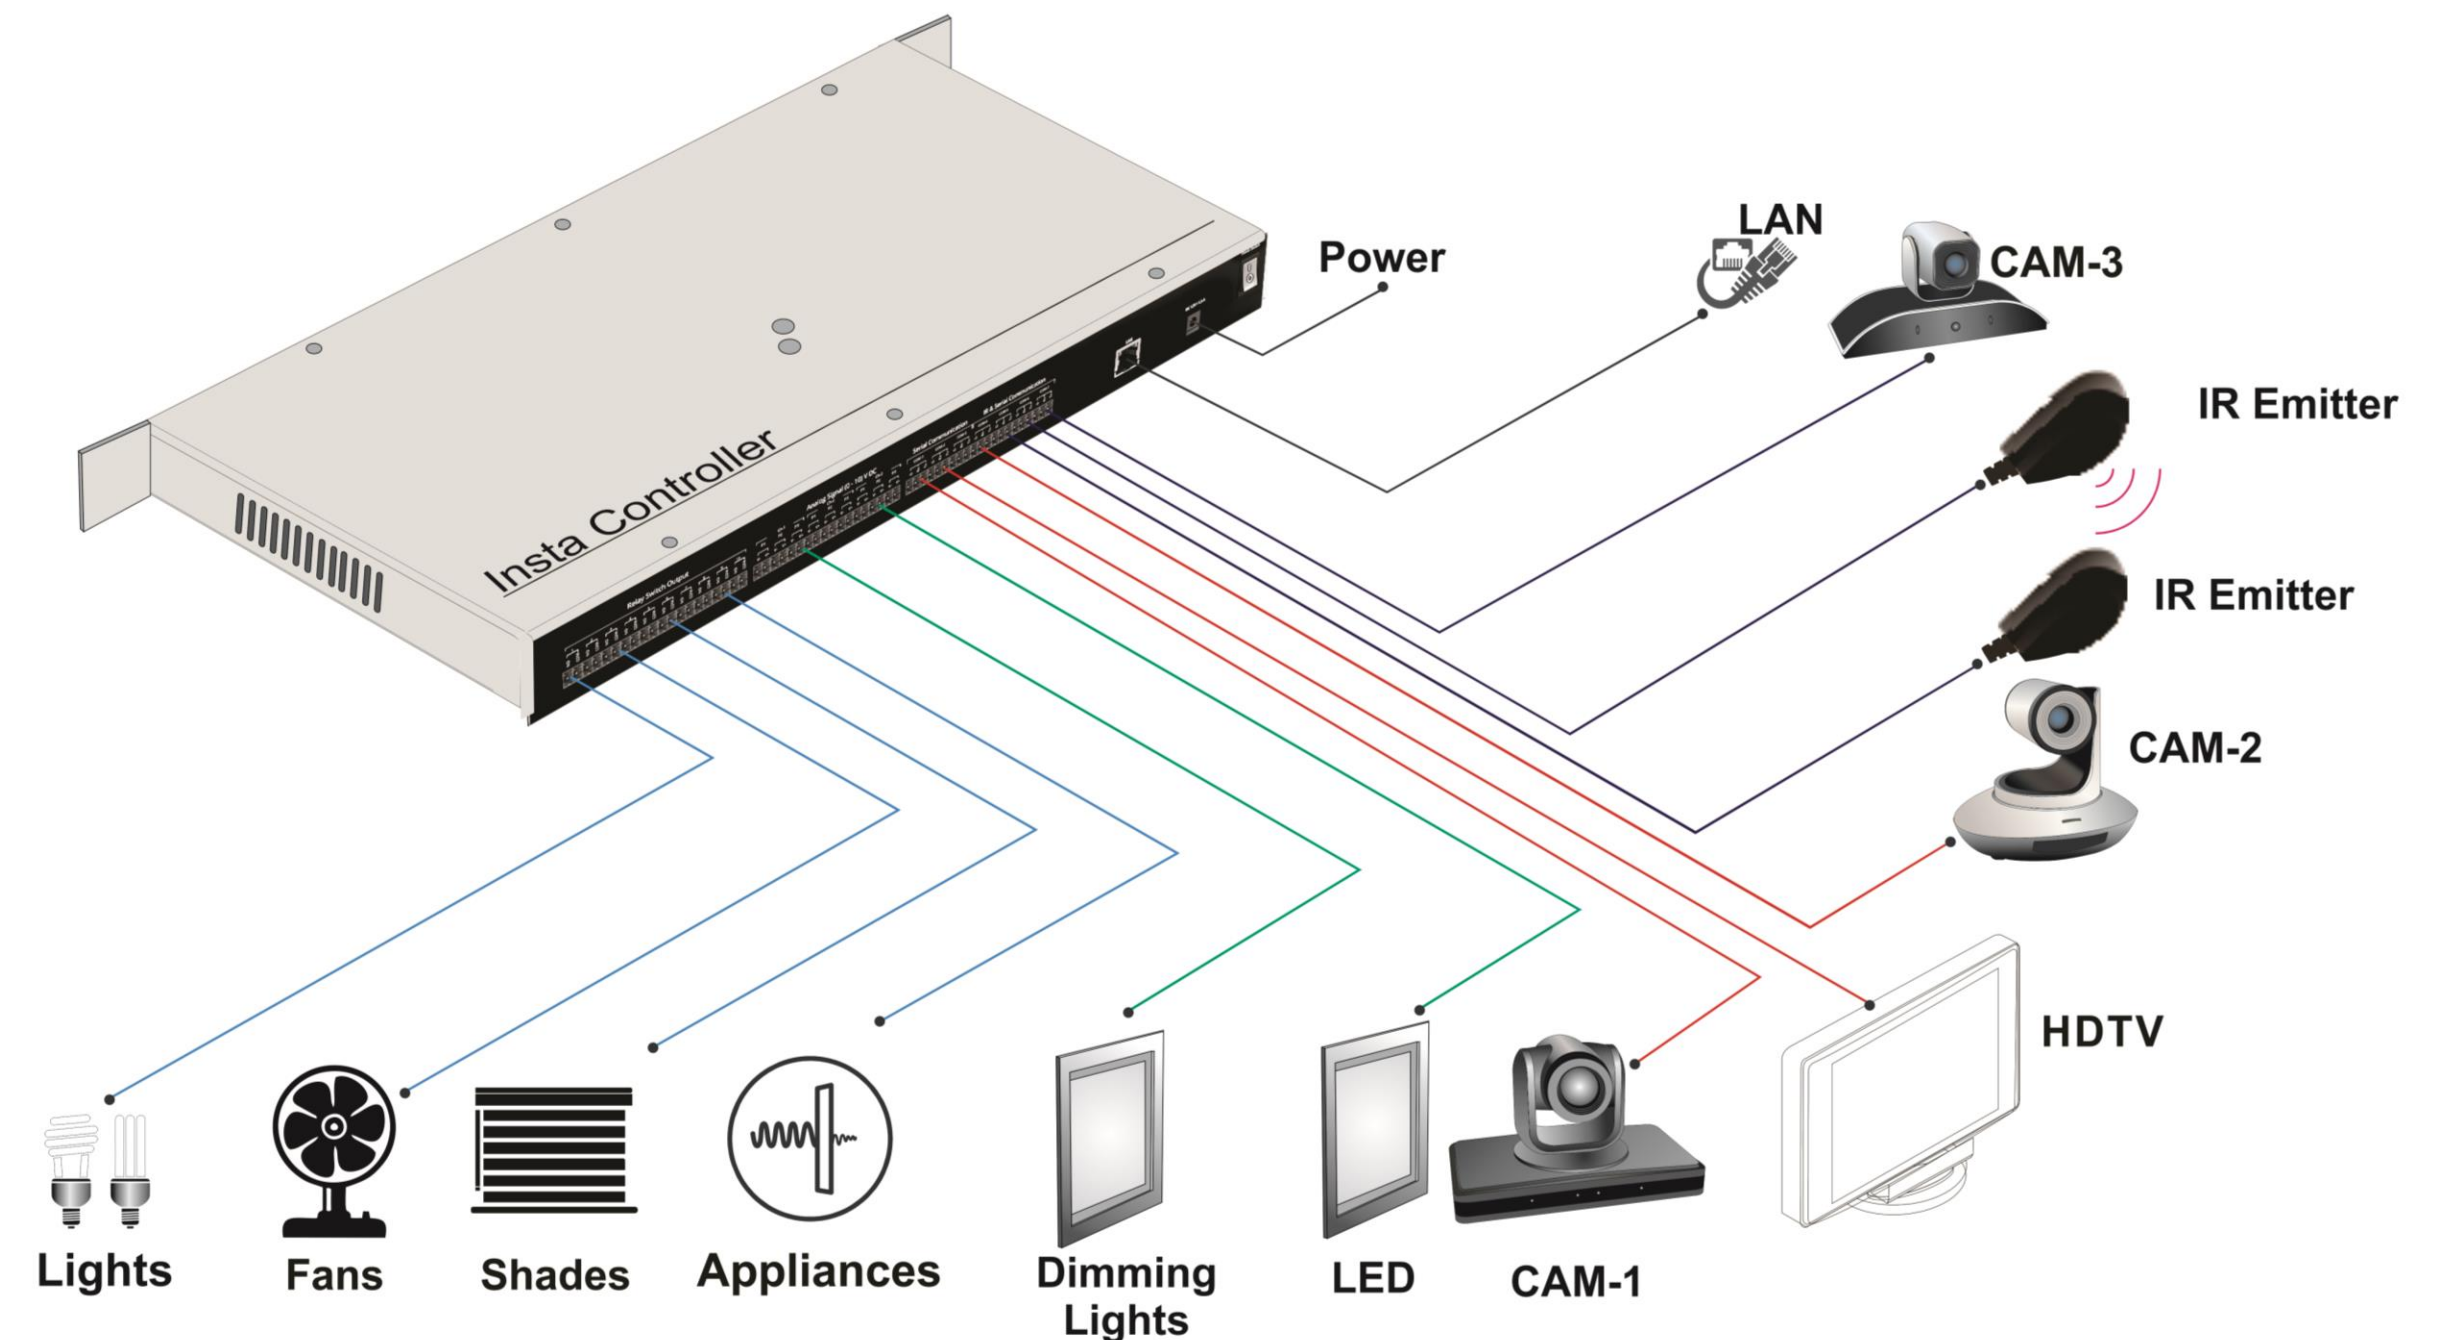

InstaController ARSI (31074)

PeopleLink Instacontroller is a control system that integrates with IP devices. This device offers secured and reliable connectivity with a wide range of IP devices, like touchscreens, computers, mobile devices, etc. whether on-premises or at remote locations. The Instacontroller android app helps in controlling systems on LAN, WAN or Internet from any location across the globe.

- Central Control System

Document Camera Devices

Document Camera Devices

Peoplelink iVision

Experience true images in virtually any condition. Featuring a large, highly-efficient imaging sensor with powerful document capture capability to deliver high quality images. Large, intuitive buttons extend simple navigation and control. Easily capture the subject with ultimate quality.

- Capture high-quality at 5 mega pixel
- Fastest scan, <1s
- One click auto flip
- Support OCR recognition
- USB power, eco-friendly
- Built-in Microphone, could record video with sound

PeopleLink iVision Pro-20x

Experience true images in virtually any condition. Featuring a large, highly-efficient imaging sensor with powerful document capture capability to deliver high quality images. Large, intuitive buttons extend simple navigation and control. Easily capture the subject with ultimate quality.

- 20x Zoom (5x optical, 4x digital)
- Three-stage LED light (Five-stage optional)
- Video Freeze, Negative, Rotate, Auto focus, Text
- With microphone, synchronous voice record
- Could Integrate the Vice Camera for Interactive Teaching, Training, Visual Presentation.

Interactive Devices

A group of five people are seated around a white conference table in a modern office. They are looking at a large monitor on the wall which displays a video call with a woman. Another monitor next to it shows a technical drawing or blueprint. A whiteboard with handwritten notes and diagrams is visible in the background. Large windows on the right side of the room provide natural light. The scene is dimly lit, with the primary light source being the screens and the windows.

Interactive Displays

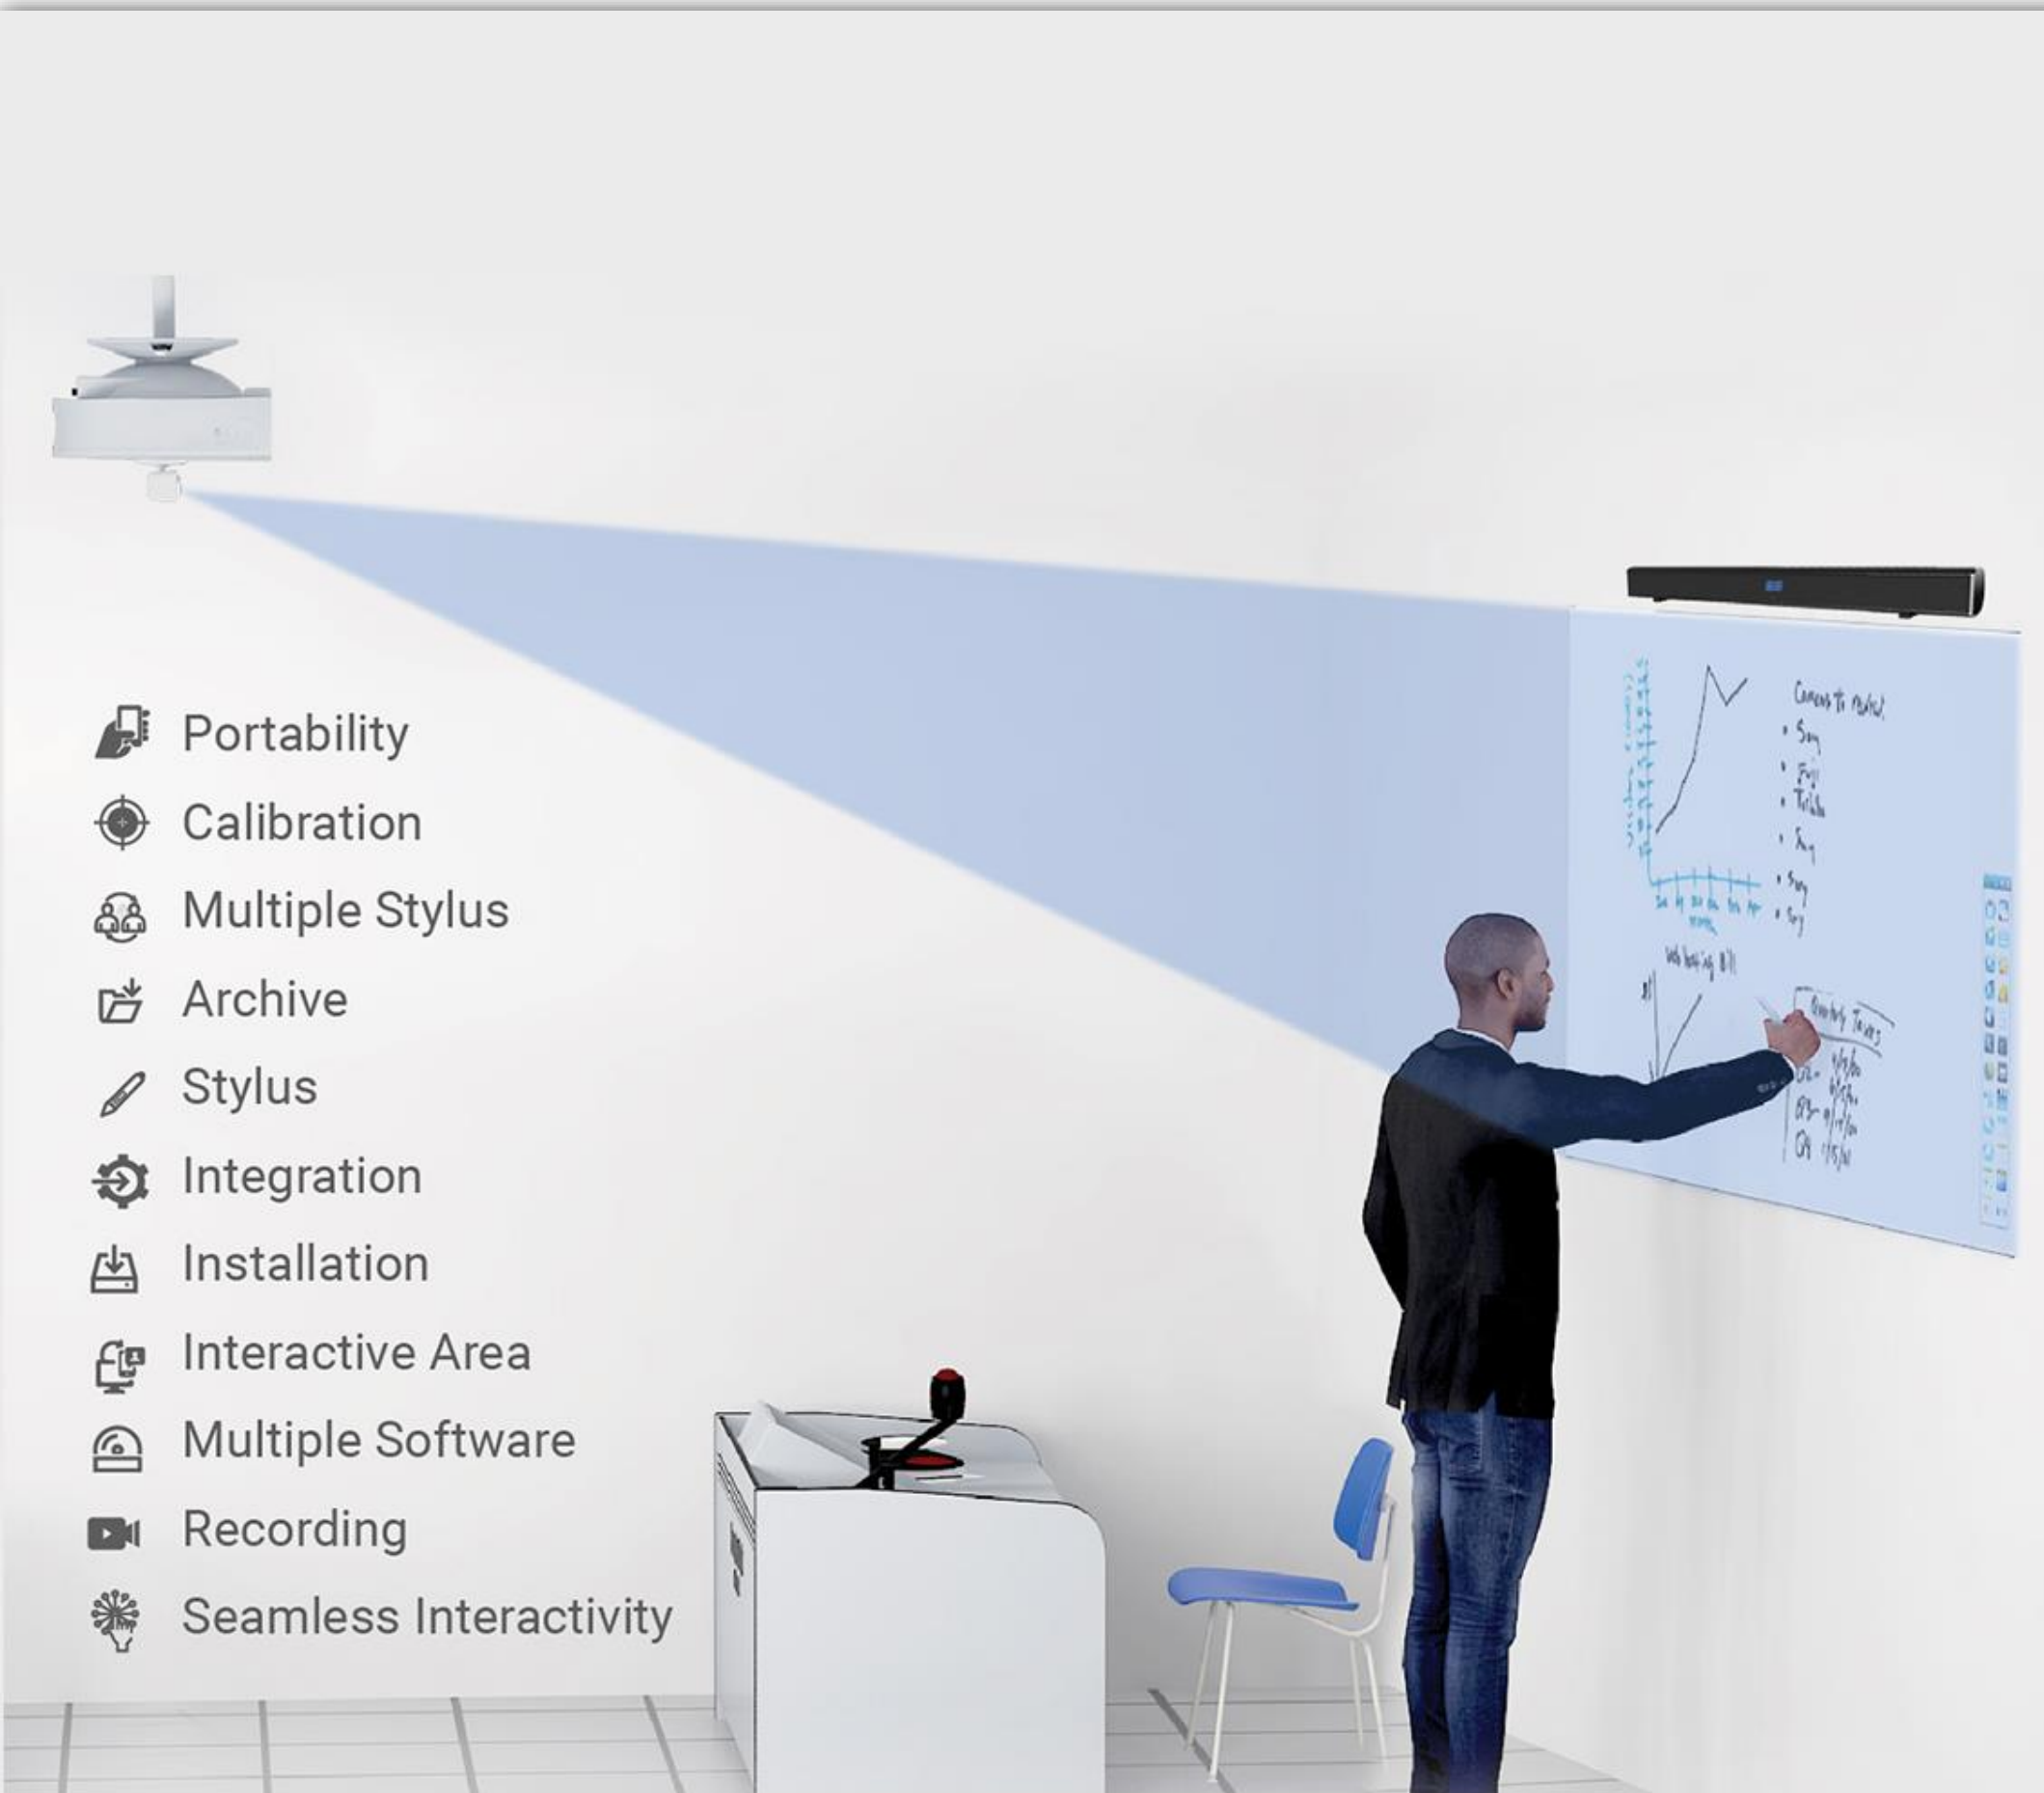

PeopleLink Collaborate T65+ / 75+ / 86+ Displays

4K UHD interactive display bring more collaboration and student engagement to your classroom, you can share files in one touch, and use your favorite software all with your fingers and the press of a button.

- Stunning 4K UHD resolution redefines clarity
- Resolution 3840 x 2160 Pixels
- Touch Surface : Optical Bonding Anti-Glare & Anti-Finger Print Glass
- Touch Points : 20 Points Under Windows / 10 Points Under Android
- Writing Tools : Stylus or Finger
- High accuracy touch screen.
- support 1 point 2mm precision writing and 6 points 3mm simultaneous writing
- Writing height below 2mm to bring smoother writing experience
- All-channel annotating,
- Built-in Android writing software
- Public USB port auto switch
- Smart sidebar menu
- Antenna hidden inside (Optional)
- All channel can be loop-outed by HDMI (Optional)
- Screen lock (Optional)

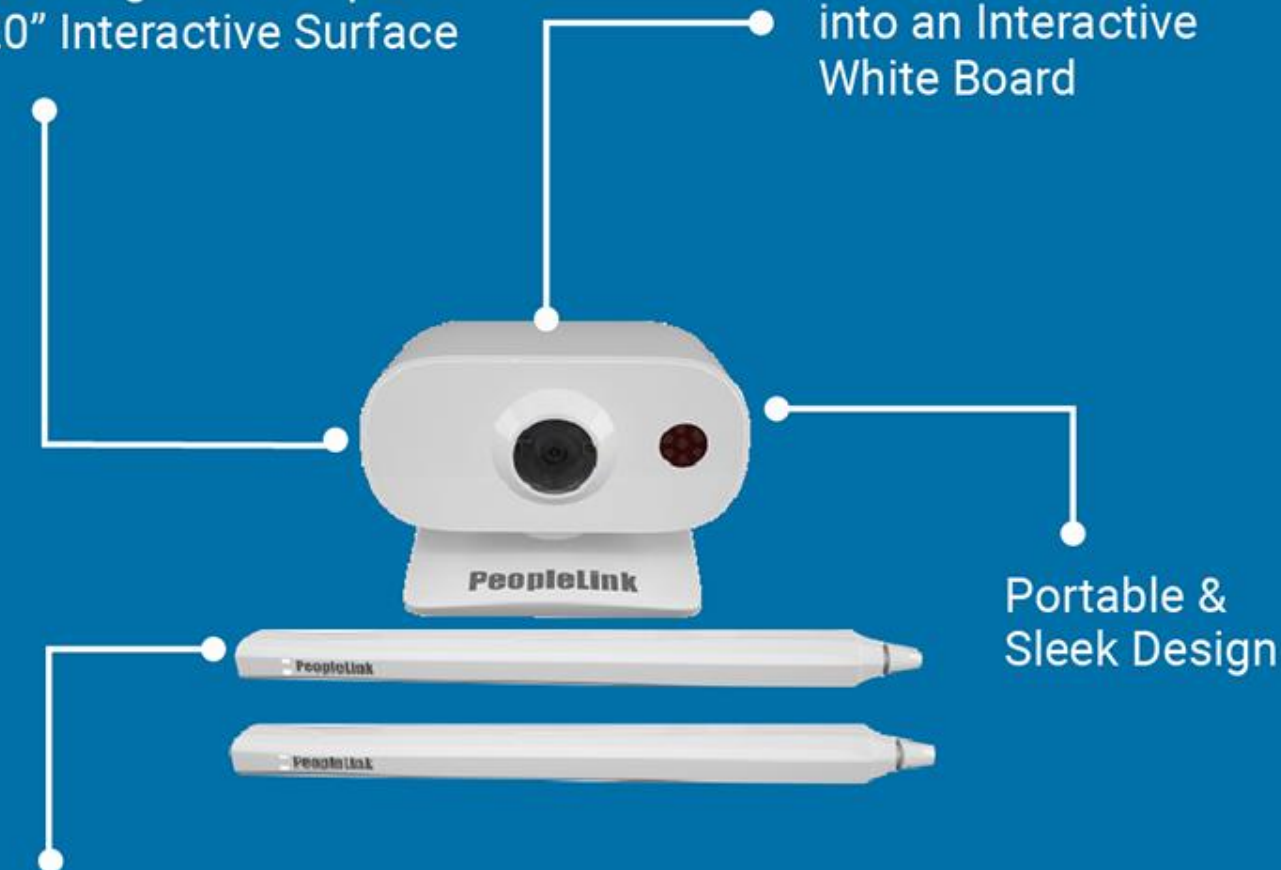

Interactive White Board Solution

Turns Any Surface into an Interactive White Board

Providing almost upto 120" Interactive Surface

Turns any surface into an Interactive White Board

Multi touch recognition for much enhanced collaboration

PeopleLink Interactive WBS (White Board Solution) connected to your projector will turn your regular whiteboard into a fully featured interactive whiteboard. You can take notes, annotate PowerPoint presentations, and turn any surface into a fully functional Interactive board.

Industry Specific Solutions

Video Conferencing Solutions

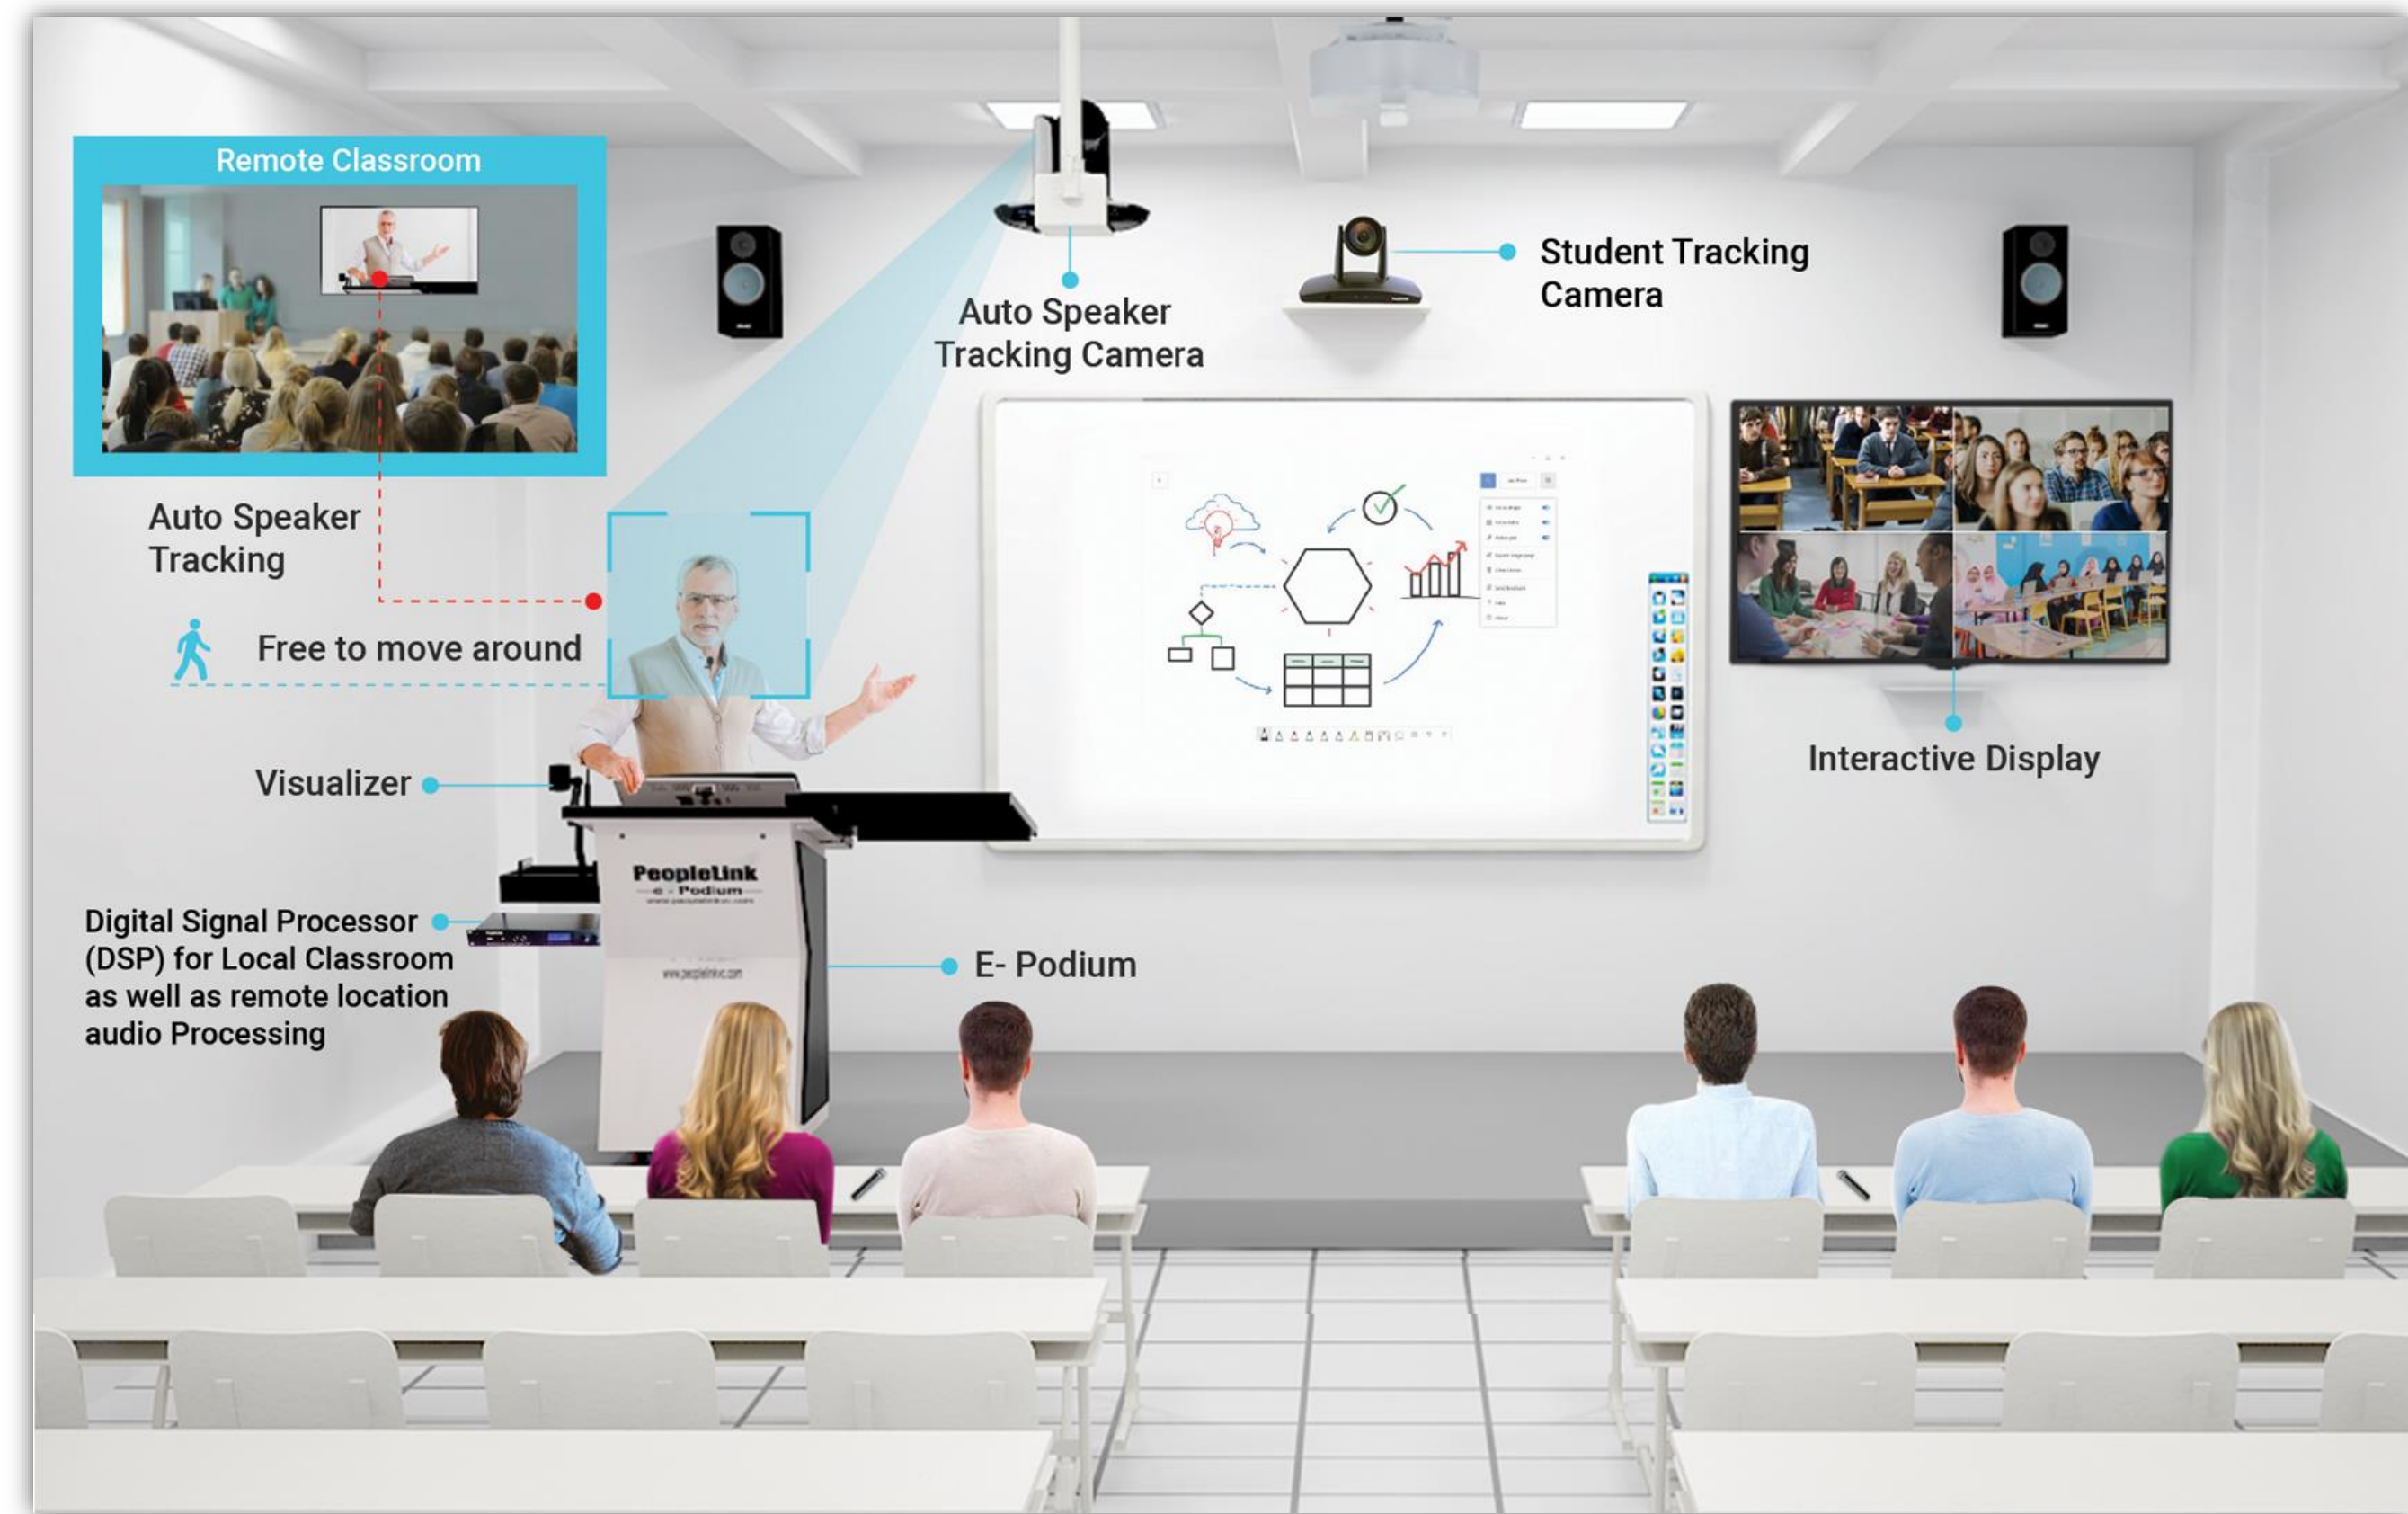

Classroom Solutions

PeopleLink offers virtual, hybrid, and digital classroom solutions that transform every traditional classroom into a boundary-less virtual space where students and teachers can interact in a face-to-face real-life session very easily.

Key Elements Of A Successful Hybrid Virtual Classroom Solution

- Desktop, Laptop, Tab Or Mobile With **Internet Connectivity**
- **Teacher Tracking Camera** – The Teacher Can Move Around Freely Without The Need Of An Additional Person To Manage The Camera
- **Student Tracking Camera** – Keep Track Of All Students Connected From Different Locations
- **Interactive Display** – Touch Sensitive Display For Interactive Learning
- **Audio DSP And Ceiling Microphones** - Hear Every Participant Clearly
- Multi Location Video Conferencing For Education That **Works Even At Low Bandwidth**
- **Digital Podium (At Teacher's Location)**

Classroom Solutions - Products

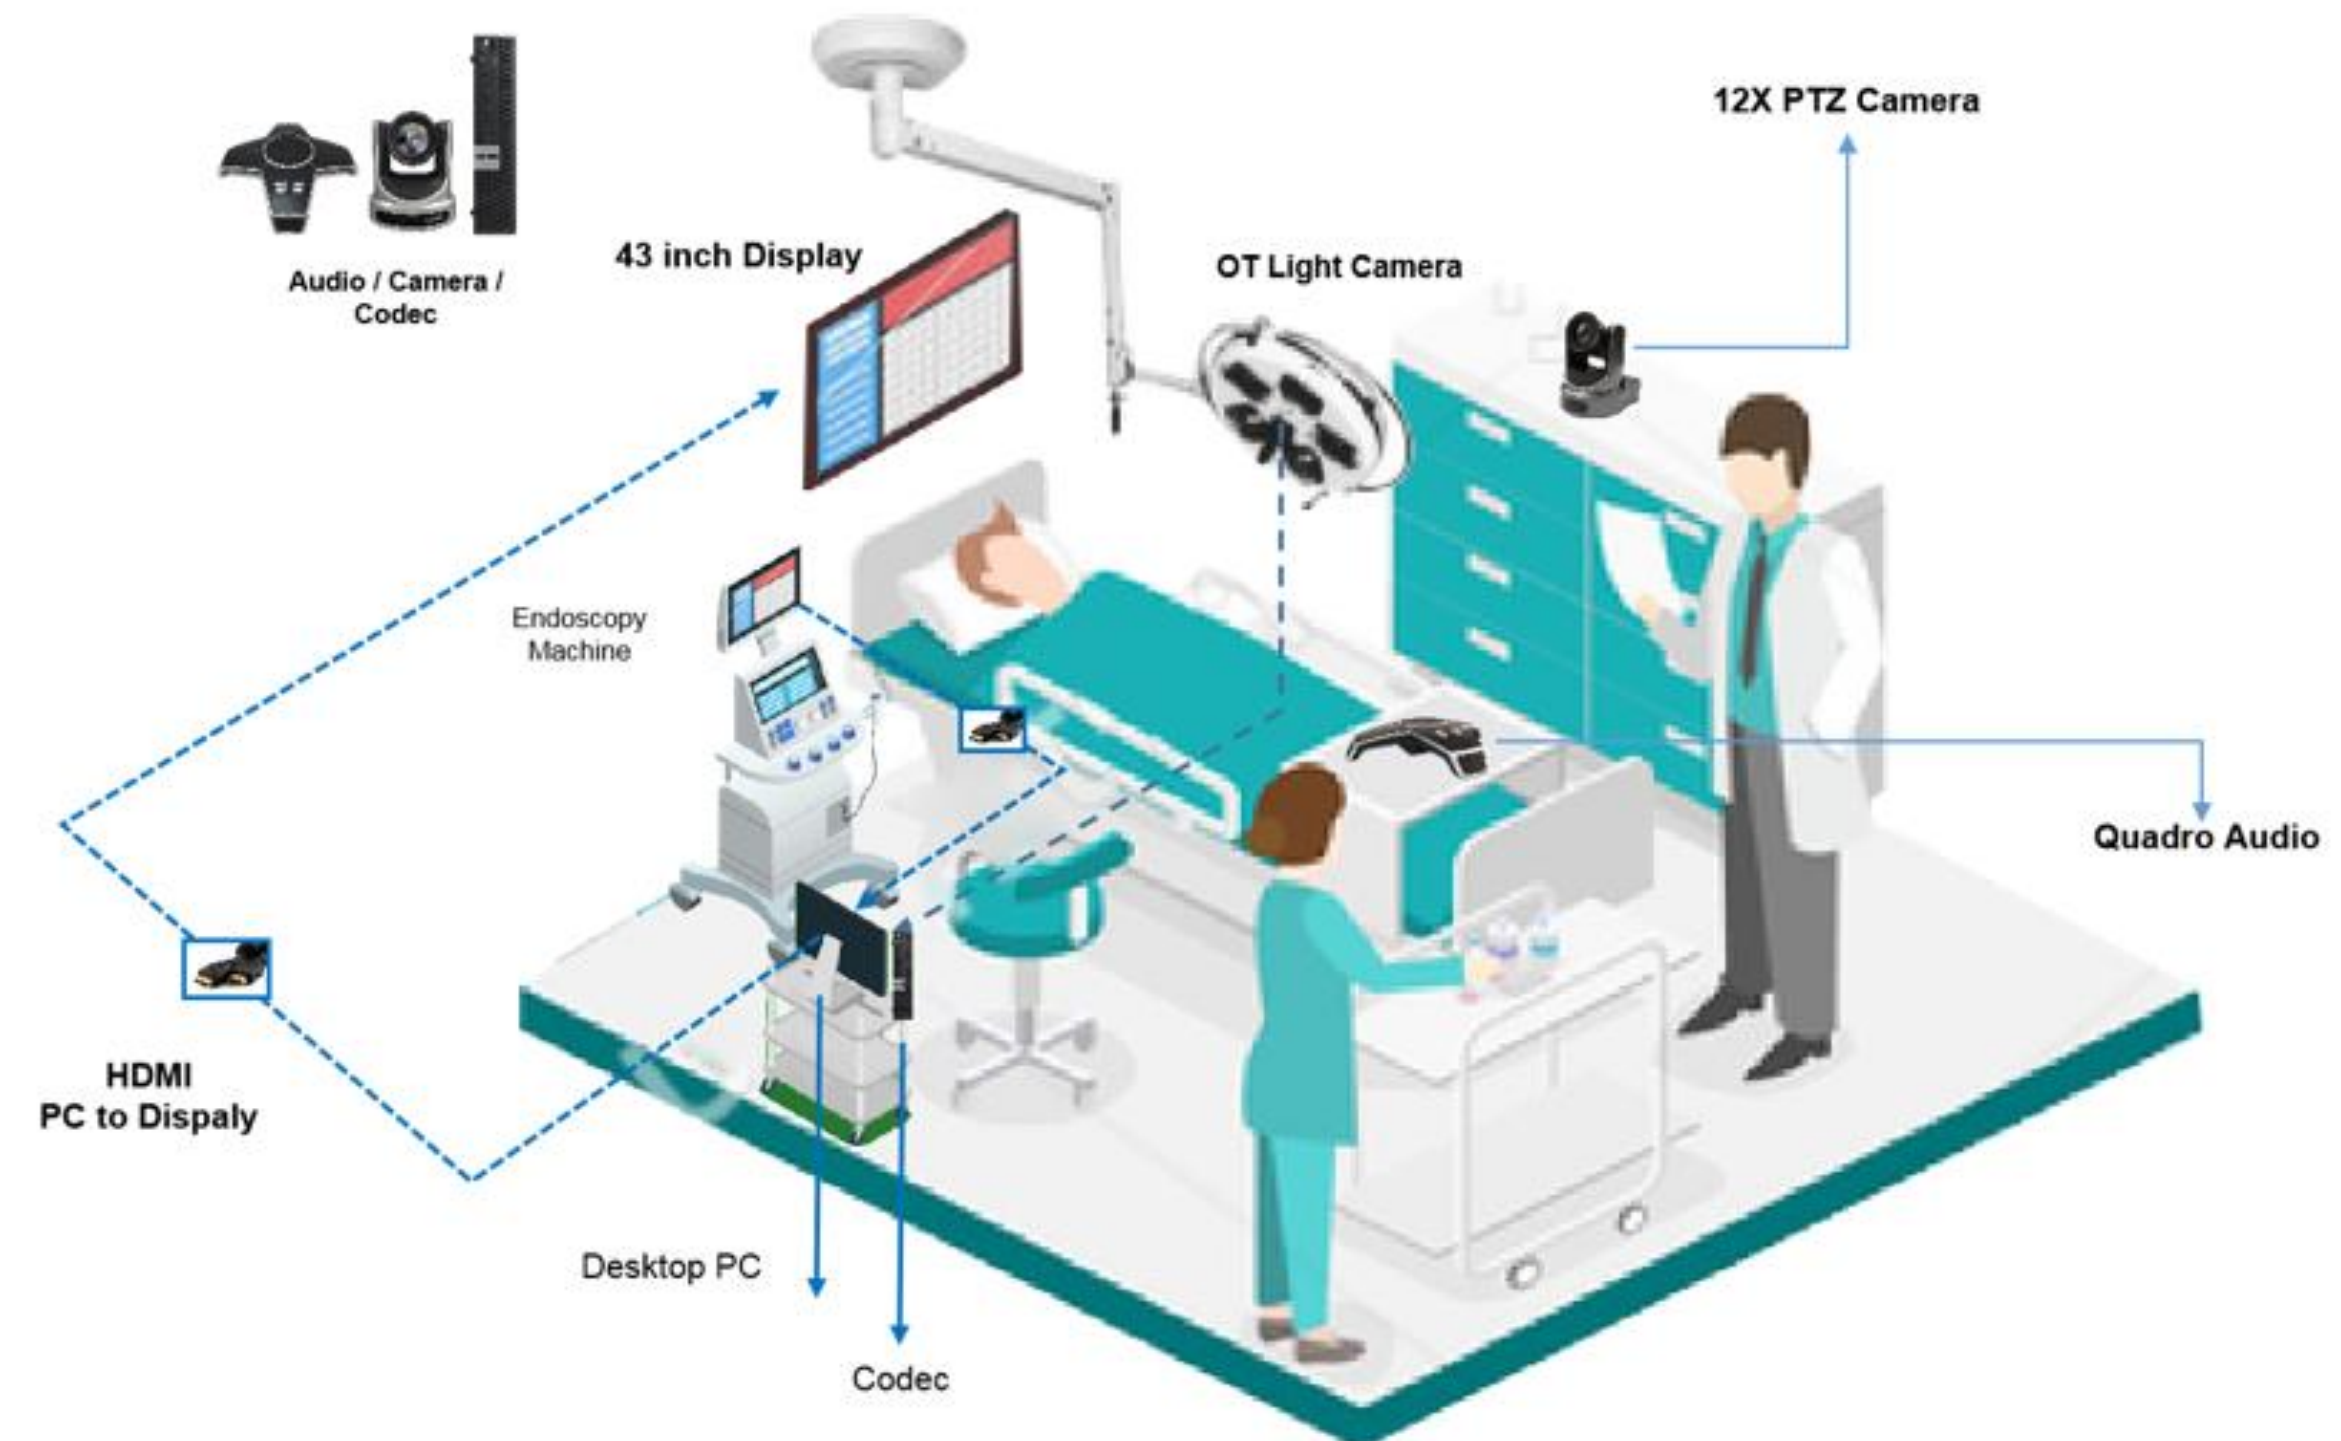

Health Care - OT Solution

Peoplelink VC solution the operation process can be recorded as well as it can be broadcast to other training centers as well as it can be broadcast to the seminar hall real time.

Video Mixing:

- The whole session can be visualized by any student for online training.
- Any external specialist can check on all and give expert advises.
- The whole session can be recorded and stored for future reference also.
- Integration with medical device like dicom, x rays, and ultrasounds so the video output from all medical devices can also be recorded and broadcast.

Hon'ble CM Shri Pinarayi Vijayan for live Trials

PeopleLink
powers India's Largest e-CourtRoom & Jail Connectivity

'In-video' court appearances of jail inmates put judges, police at ease

87 full-fledged videoconferencing studios set up in jails and 370 studios in trial courts

EXPRESS NEWS SERVICE
@Palakkad

THE Covid pandemic and technological advancements have changed the way of various establishments function. The courts are no exception. Instances of prisoners being produced in courts in-person have witnessed a significant drop following the pandemic outbreak. Now, like various other meetings, this too is being done via videoconferencing.

"All the jails in the state have videoconferencing facility and can connect to trial courts," K Anil Kumar, the superintendent of district jail, Malampuzha, told TNIE. He said there are 54 jails and 370 trial courts (except munsiff, family and MACT courts) in the state. There are 87 full-fledged videoconferencing studios established in jails (major jails have multiple studios) and 370 studios in trial courts, he said.

"Earlier, nearly 1,000 remand

Monday's sitting of the NDPS court, Manjeri, during which 11 prisoners from five jails appeared via videoconferencing

Earlier, nearly 1,000 remand prisoners used to be produced before various courts physically in a day. Each of them was escorted to and from the court by a two-member police team.

K Anil Kumar, Superintendent of District Jail

prisoners used to be produced before various courts physically in a day. Each of them were escorted to and from the court by a two-member police team. That means nearly 2,000 policemen were involved in the entire process. Due to videoconferencing, police personnel are at ease now," he said.

The number of prisoners in the state's jails also came down

from the 7,500-8,000 earlier to 5,000 now as many were given interim bail and parole adopted in the wake of Covid spread, he said.

On Monday too, 11 prisoners remanded in five different jails appeared before the NDPS court in Manjeri via videoconferencing. Five of them were from the district jail in Palakkad 2 each from Manjeri special sub-jail and Perinthalmanna special jail and one each from the district jail in Mananthavady and the sub jail in Tirur. The judge extended all of their remand period to June 26. The entire process was wrapped up in six minutes.

Earlier, the process would have required 22 police personnel in teams of two to escort the 11 prisoners to the court, which would result in a crowd of 33 people in the courthouse. The entire process would have been more time-consuming and there would also have been travel risks, said Anil Kumar.

370 studios in trial courts.

87 full fledged Video Conferencing Studios.

Huge Savings by the state on Time & resources of Police personnel escorting the prisoners to the court.

Faster Trials & Hearings.

Enhanced Safety for Judiciary, prisoners & Police personnels.

Kerala Courts & Jails Connectivity

RajComp World's Largest State-wide Video Conference Deployment

PeopleLink's Live Connectivity

Live Connectivity of over 500 Legal Literacy Institutes (Clubs) Inaugurated by the Hon'ble CM of Jharkhand.

Limca *Book of Records*

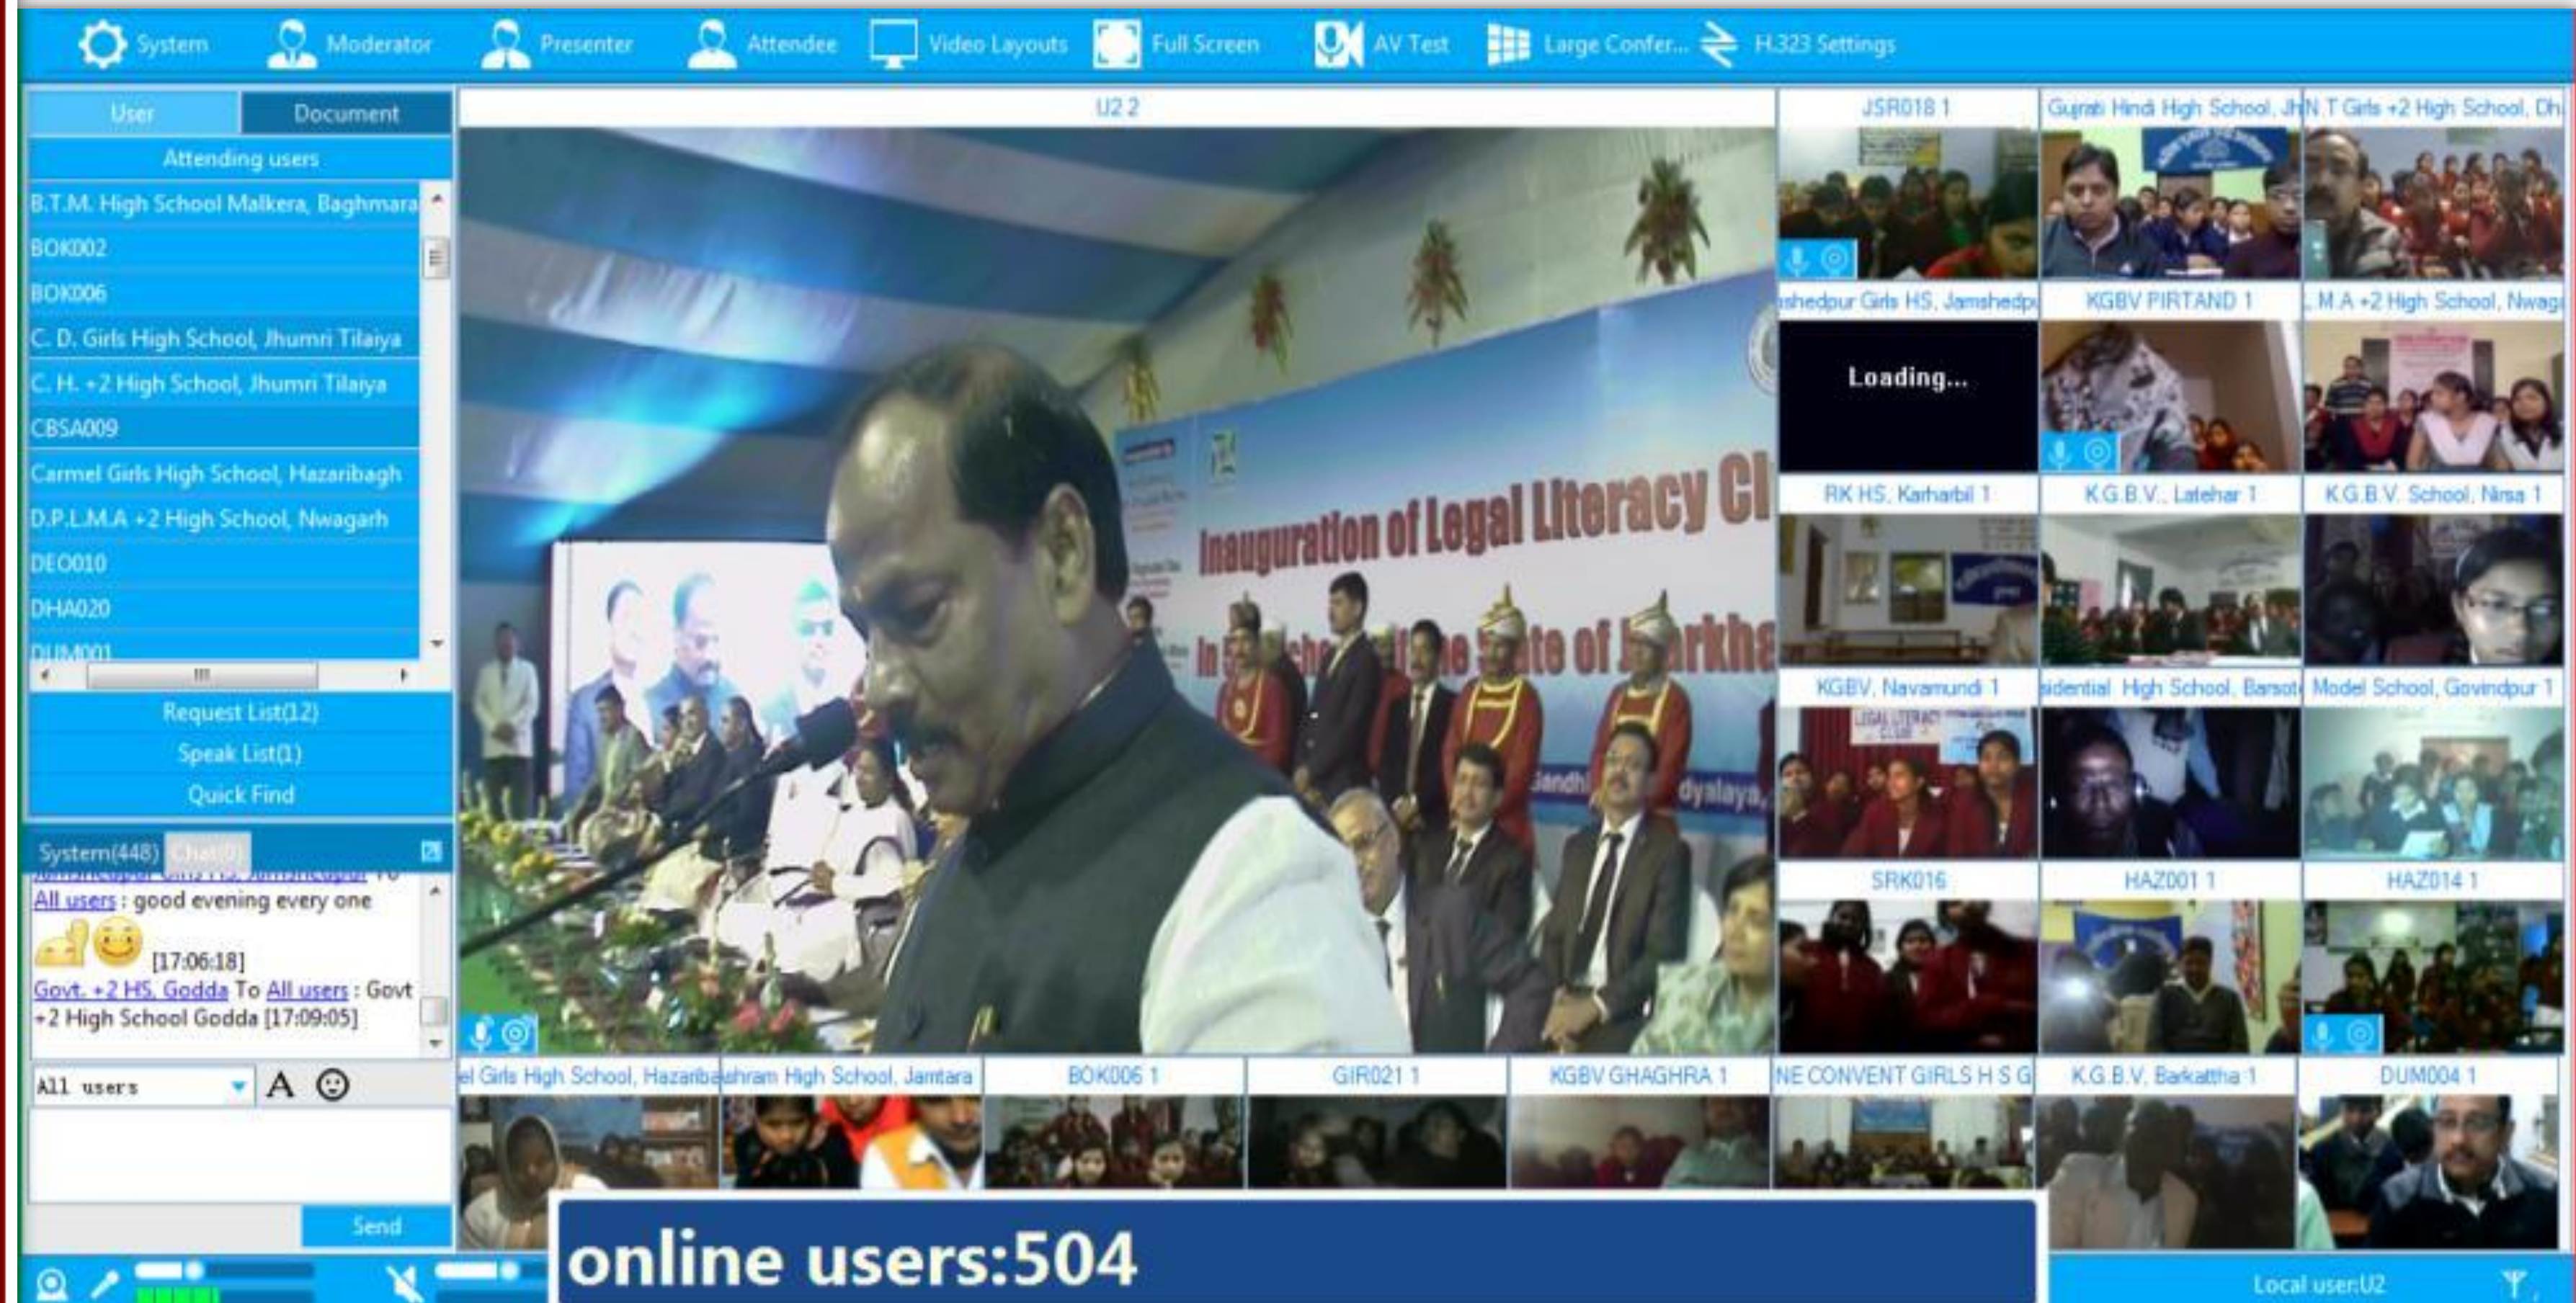

National Record

On a single day on Dec 10, 2016 at Ranchi, 500 Legal Literacy Clubs were opened by Jharkhand State Legal Services Authority (JHALSA), headed by Justice D.N. Patel in 500 schools of tribal girls and boys to impart primary knowledge of law to the children of these schools. This work was contemplated and executed by JHALSA in six months with the help of Education and Welfare Department of the State Government.
